Easy 3D

Range of hinges for entrance doors

Easy 3D

The adjustable hinges for entrance doors

The range of high technical performance hinges

The family of Easy 3D hinges covers the vast majority of existing applications in various markets, in a range of different geometrical profiles. Perfect for application on heavy doors, it is easy to install and adjust.

Modern practices in view of energy savings and latest trends involving the use of increasingly heavier glass, require the use of certified, high-performance hinges. Easy 3D, able to support loads of up to 160 kg, has been awarded CE certification and is deemed suitable for use on fire doors by IFT Rosenheim, making it a versatile solution for all needs.

High resistance against corrosion, the presence of a safety screw on all hinges and the wide range of available colours gives the door a unique and highly prestigious appearance.

Easy 3D Ø 20	4
Easy 3D Ø 20 stainless steel	6
Easy 3D Ø 20 flush fit	8
Adjustments	10

Easy 3D Ø 20 high technical performance hinge

The elegant balance between beauty and sturdiness

The family of Easy 3D hinges guarantees simple and fast assembly. Adjustments in all three dimensions are simple and easy to make using a single Allen key. Each adjustment is independent of the other and can also be made with the door closed

Easy 3D hinges are symmetrical (both right and left) and the triple-body structure ensures perfect stability, maintaining its position perfectly in axis.

Easy 3D Ø 20 stainless steel hinge in stainless steel for outdoor use

The elegant balance between beauty and sturdiness

The Easy 3D stainless steel hinge has been developed to satisfy the needs of those looking for a modern, contemporary look such as satin-finish stainless steel. It combines ease of assembly and adjustment, typical of this hinge, with a modern look in satin-finish stainless steel.

Patented 3 diameter studs, with 'saw tooth' thread, ease insertion, whilst guaranteeing pull out resistance in excess of 1500 kg. Ensuring stable anchorage into any profile.

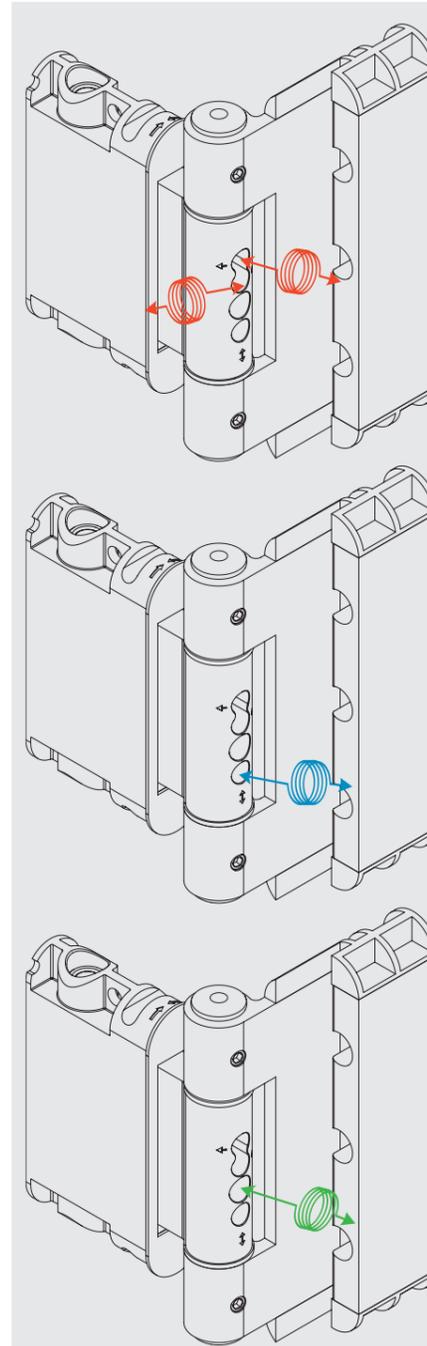

Easy 3D Ø 20 flush fit robust and refined hinge for flush fit and entrance doors

The refined version for application on flush fit doors maintains all the characteristics of the respective hinges for leaf door applications.

Adjustments
