Uniform limewash effect using
KEIM Restauro® Lasur

ST PETER'S, NOTTING HILL DIOCESE OF LONDON

St Peter's is a Grade II* listed church in Notting Hill, West London. It was built to designs by Thomas Allom and is reputed to be the last Classical Revival church built in London in the 19th century.

Building began in 1855 and the church was consecrated in 1857. Its large scale portico and west tower are the notable features.

A complete restoration and refurbishment has been carried out, including the reinstatement of its redundant gallery, new meeting rooms and exterior colour-washed facades.

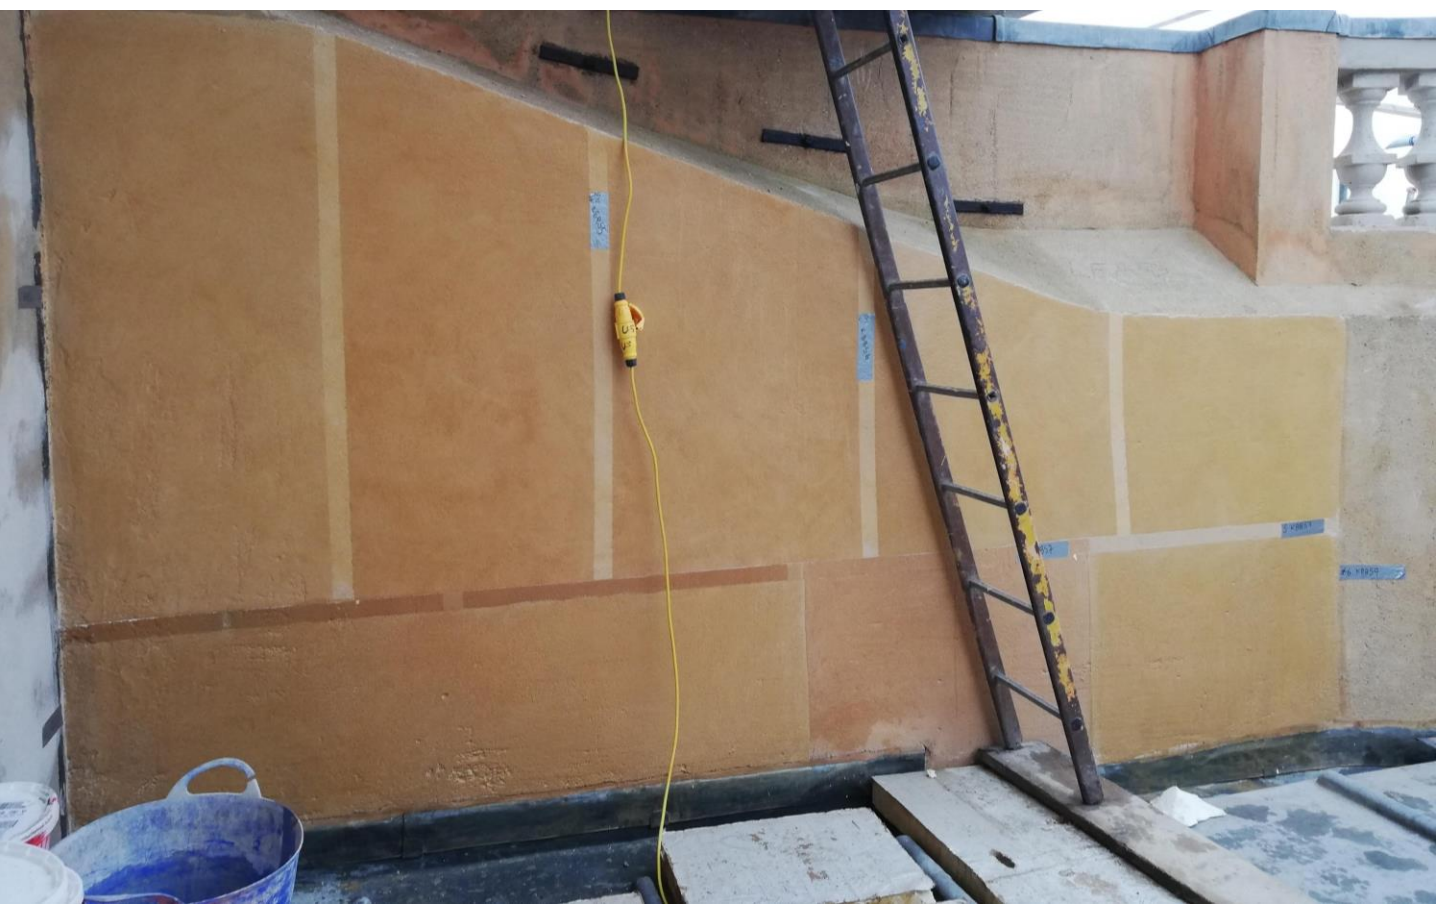

KEIM were approached in 2019 by Sheppard Architects to help with the restoration of this Grade II listed church.

The architect wanted to achieve a look that replicates limewash, with some very subtle variation almost replicating a layering colour of bath stone.

Nicola Young, Senior Colourist & Anton Boekhoudt, National Architectural Business Development Manager of KEIM Mineral Paints, visited site several times and carried out many colours samples in order to achieve the desired colour system.

The final specification was a layered solution to achieve the desired finish. This included a coat of KEIM Soldalit® Fixativ to the newly applied lime skim, and KEIM Soldalit® Grob applied to all areas. The surface was then painted using KEIM Soldalit® K8773, before lastly KEIM Restaurolasur® K8845 & K8868 being applied as the top two coats.

WHAT IS KEIM SOLDALIT®?

KEIM Soldalit® is a modern paint system for use on mineral and previously painted substrates.

Key features & benefits:

- Breathable
- Economical and easy to apply
- Extreme long life/durable
- Environmentally friendly ISO14001
- Increases light reflectivity
- UV stable
- Advanced weathering protection
- Inherently incombustible
- Fire classification: A2s1 d0
- Natureplus certified

KEIM Soldalit® Fixativ is silicate based primer for highly absorbent substrates.

KEIM Soldalit® Grob is a base coat for filling hairline cracks and textural variations.

WHAT IS KEIM RESTAURO® LASUR?

KEIM Restauro® Lasur is a mineral paint system for use on stone surfaces to provide a colour wash or semi-transparent finish.

Key features & benefits:

- Breathable
- Water vapour permeable
- Resists algal and fungal growth
- Non-flammable
- Lightfast
- UV stable
- Mineral matt
- Unifies colour and blends unsightly repairs

KEIM Restauro® Fixativ is the primer and dilutant for KEIM Restauro® Lasur.
