WALTON WINDMILL, WALTON HILL, STREET

This historical landmark is situated on the top of Walton Hill overlooking the village of Street. The Grade II Listed windmill, which is owned by the Clarks family, the British international shoe manufacturer, had previously been painted using KEIM Soldalit in 2010. The existing paint had performed well, but due to exposed location was in need of a thorough clean.

The owners planned to redecorate the exterior in 2024 with Terry Rendell Quality Painting & Decorating overseeing the scheme once again. Julian Cullum of KEIM Mineral Paints met with Terry Rendell at the property and advised that the surfaces should be cleaned using a specialist contractor.

Once cleaned, all previously painted brickwork was redecorated using KEIM Soldalit-ME, an exterior sol-silicate photocatalytic based paint for use on mineral and previously painted substrates.

This is a great example of the longevity of KEIM Mineral Paints. We recommend periodically washing painted surfaces with clean, cold water and mild detergent to prevent a build up of dust or dirt.

WHAT IS KEIM SOLDALIT®-ME?

[KEIM Soldalit®-ME](#) is an exterior sol-silicate photocatalytic mineral paint. It is a variation of [KEIM Soldalit®](#) which offers sustainable protection for buildings with an additional environmental benefit that helps to degrade nitrogen oxide pollutants from the atmosphere.

The photocatalytic reaction helps to breakdown organic material and contaminants, keeping surfaces cleaner.

Key features & benefits:

- Breathable
- Economical and easy to apply
- Extreme long life/durable
- Environmentally friendly ISO 14001
- Increases light reflectivity
- UV stable
- Advanced weathering protection
- Inherently incombustible
- Fire classification: A2-s1, d0
- [Cradle to Cradle Certified®](#)
