# Always adding value

TBS plus Amwell. Two companies you've always relied on, as one. Adding up to over 80 years' combined experience. In short, more expertise, quality, choice and service. All the things you value. At great value.

## A natural partnership

In 2018, TBS and Amwell joined forces to become the leading washroom expert. Together we share a lifetime's knowledge, skills and expertise.

## Customer Service, Technical advice and CAD Team

Whatever you need, from guidance, technical advice and samples to specifications and bespoke diagrams, we're with you every step.

## Rapid quote turnaround

We will provide fully costed quotes within 48 hours.

## Widest choice of products

Choose from the widest range of washroom products for all sectors, styles and specifications.

## In-house and UK made

We design and manufacture all our products in-house to maintain the highest quality and the lowest costs.

## Simple installation

All our products are designed for quick and easy installation, and come with complete instructions.

## Our 5 year guarantee

Fit and forget with our 5 year guarantee and peace of mind.

## Free online tools

Use our Gallery to see how your washroom could look and our Specification Pack to download NBS Documents and CAD Blocks.

## Environmental commitment

We believe in doing right by you and the environment. All our veneers are FSC® certified and our own biomass burner has put an end to our landfill use.

# Doing right by you and the environment

We all value the environment. So we go to greater lengths to help protect it.

All our veneer-based products are FSC® certified. That means the wood comes from sustainable forests, supporting the communities who depend on them. We have also invested in our very own biomass burner enabling us to put an end to our landfill use altogether.

Just another way to show that a quality washroom doesn't have to cost the earth.

**Veneer products FSC Certified**

**We use sustainable forests**

**Supporting communities**

**Offcuts heat our factory**

**Zero landfill waste**
