FRENCH WINDOWS AND DOORS

ENTRANCE DOORS

Different window material types traditionally have stereotypical features. Original timber windows had 'flush fitting' opening sashes. Aluminium windows championed thin overlaps of sash and frame (known as rebates) and UPVC windows made features of rebates. Modus abolishes stereotypes.

Modus is available with all three sash styles, to suit your property and your taste. So whether you live in an uber-modern city centre apartment, a leafy suburban semi-detached house or a traditional country retreat, there's a style for you.

there's a
style for you

STANDARD SASH WINDOWS

A modern twist
*get the look
to suit your
home*

Modus standard sash windows offer clean sight lines and a sleek frame design for the ultimate in contemporary UPVC windows. And with a range of colours available in stock and to order, you can get the look to suit your home.

Standard sash

SLIM REBATE SASH WINDOWS

Go contemporary

*create a
modern look
and feel*

Modus slim rebate sash windows offer clean sight lines with an internally flush finish – perfect for homeowners looking to create a modern look and feel to their home. If you're looking to achieve a high-end modern finish, choose contemporary colours such as dark Anthracite Grey or Moondust Grey.

We offer a range of grey finishes so you can achieve a cool contemporary look. See page 22 for the full range, which includes four stunning grey shades from dark to light tones.

Slim rebate sash

FLUSH SASH WINDOWS

Classic style, modern benefits

*complement
the style of
your property*

Modus flush sash windows offer traditional timber looks, enhanced by a range of realistic woodgrain finishes. Unlike timber, there's no risk of splitting or rotting frames! The aesthetics of your windows can be enhanced with Georgian bars, to perfectly complement the architectural style of your property.

Fully flush sash

FRENCH DOORS

Open doors

*bring a bit of
the outside in*

Modus French doors utilise the standard sash design to create sleek frames for a modern look. Expand your view onto a garden or terrace area with openings up to two metres wide. Modus French doors are perfect in the summer, when you can open them wide and bring a bit of the outside in.

ENTRANCE DOORS

Open up to your ideas

The design options are plentiful

Modus entrance doors offer you real flexibility. Whether you choose panels or glazing, the design options are plentiful. The contemporary style of Modus frames offers a sophisticated alternative to traditional UPVC doors. You can even create a co-ordinated back door!

WINDOW OPTIONS

Modus window options

The clear choice

Modus reversible windows

Modus reversible windows have a completely flush sash internally and externally. As the first co-extruded reversible system in the UK, this innovative product delivers enhanced aesthetics as well as being the most thermally efficient in the UK. With a U-value as low as 0.76 achievable with a triple-glazed unit, it is the clear choice for new build and commercial projects.

Delivers enhanced aesthetics

Modus tilt and turn windows

Modus tilt and turn windows feature a stepped sash design that is complemented by a variety of foil options. With no need for steel reinforcements and U-values as low as 0.76 achievable with a triple-glazed unit, it's the clear choice for commercial works.

Stunning colours

SECURITY & SUSTAINABILITY

Peace of mind

12-year guarantee

A 12-year frame guarantee* for total peace of mind – more than any other leading supplier.

High-security built in

All modern, internally-beaded windows are secure, but Modus raises the bar again. Its six-chamber profile design makes frames inherently stronger to prevent twisting under extreme pressure, whilst new door reinforcements further protect against attempted forced entry.

The sustainable choice

Our Dual Material Extrusion Technology (DMET) ensures post-consumer recycled material is concentrated in the centre of the frames and new, 'virgin' UPVC is used for the outside edges and surfaces, so there's no compromise on exterior finish quality. That's why we can give our frames a longer guarantee than any other leading supplier.

* Applies to white profile only.

Did you know?

UPVC can be recycled up to ten times with no loss in quality. In fact, half of all the material that makes Modus is made from recycled UPVC window and door frames.

SAVE MONEY

Save money on heating bills advanced technical performance

Better energy efficiency is one of the main reasons why homeowners replace their windows. So if you've decided to take the plunge, you probably want to ensure you get the best possible performance for your budget. Modus is a window system design that offers better thermal performance than competitors. We're talking U-values as low as 0.76*, which is much lower than current and future Building Regulations require.

*with Argon gas. Lower U-values are achievable if required.

A++ for energy efficiency

High-performance Modus windows can achieve an A++ BFRC energy rating – which means you can lock heat into your home and reap the benefits of lower heating bills

CUSTOMER HOMES

“

As we had a large number of timber windows in our house we constantly had to repaint them – if we didn't the beads and bottom cill were prone to rotting. It really was causing us a problem.

What we needed was something that gave us the aesthetics of timber but without the maintenance issues and as soon as we saw Modus we knew that it did just that!

”

Homeowner, Derbyshire
