Welcome to Aluminium windows & doors

simply spectacular

Versatile and luxurious aluminium systems with stunning frames and incredible sightlines.

The beautifully sculptured Aluna aluminium windows and doors are distinctive in their design using the highest quality materials and expert manufacturing.

Bringing ultra-modern designs and technically advanced to provide the best solutions in every home.

ALUNA

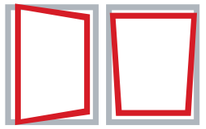

Why Choose *aluminium?*

Aluminium is known as the highest-quality material on the market, renowned for its durability and hard-wearing materials. Aluminium doors and windows can be maintained for decades, due to their high resistance to the elements. It is also extremely strong, providing a high level of security in every home.

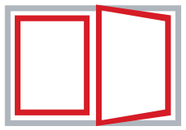

Aluminium windows are among the best insulated on the market, thanks to their advanced thermal break technology, which prevents cold transfer. They require very little maintenance to ensure optimal performance and a fresh aesthetic.

Durable luxury *hardware*

Aluna+ delivers the very best

The Mila handle is available in 5 suited finishes, including Polished Gold, Polished Chrome, Smooth Satin Chrome, White, and Black.

Manufactured with the ease of operation in mind, this modern handle design features an ergonomic lever contoured to the shape of the hand, and a tear drop button that offers comfort during use.

Complete with a high-security locking system, the handles are extremely reliable having been tested up to 50,000 cycles. The handles also come with 10-year mechanical guarantee, for extra peace of mind.

COASTAL STAINLESS STEEL RANGE

The high-quality window handles from Coastal offer a sleek, contemporary look with no compromise on security.

The super slim design flawlessly complements the aluminium windows, while the lockable system is ideal for those safety-conscious homeowners.

The handles are manufactured from solid 316 Marine Grade Stainless Steel, which is also available in PVD Satin Black Finish.

BLACK STAINLESS STEEL

Casement windows tailor your options *to suit your home*

The Aluna+ Window range is available in standard, flush, or Heritage options, all have super slim sash profiles providing minimal sightlines and maximised views. With its elegant, contemporary design, the Aluna+ Window perfectly complements our other Aluna aluminium products.

- Available in Casement, Tilt Turn, and Flush
- Heritage, flush & standard casement window options
- Energy rating A (WER)
- Side hung, top hung, and fixed light options available
- As low as 0.9 u-value with triple glazing
- As low as 1.3 u-value with double glazing.

Bi-Folding Doors superior

panoramic view

The Aluna bi-fold system is endlessly versatile, suitable for projects requiring bi-folding doors and windows, single doors and French doors.

The slim profile sections of the Aluna bi-fold minimise the visible framework and maximise the glass area, with super-slim sightlines from just 107mm. Offering one of the largest sash sizes available, Aluna offers customers dimensions of up to 1200mm wide and 3000mm high per pane.

Enjoy silky smooth opening and closing operation due to engineering-grade hardware. Ideal to open up your space to the outdoors and create a visually stunning addition to your property. The doors also offer excellent thermal performance with U-values as low as 1.1 U/m^2K with triple glazing, and 1.4 U/m^2K with double glazing, plus high security to PAS24:2022 standards.

Available in 2 profile designs: square and textured square*. Choose square for a classic look or textured square for a more contemporary alternative.

ALUNA BI-FOLD

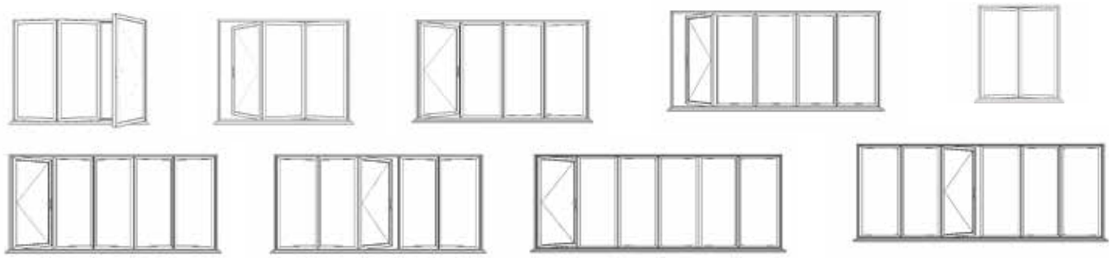

beautifully designed

Bi-fold doors offer a choice of opening configurations to suit your needs:

- Fold the doors in or out
- Slide all doors to one side
- Create a single entrance for easy access and have the remaining doors slide the opposite way
- Part the doors centrally to create a double door
- Can be manufactured with up to 7 leaves each way (14 in total)

Configuration examples:

Not all configurations have an external handle for access from the outside.

Handles

The Sweet Handles
Safe, Stylish & Durable

The Ultion Sweet Handles are a popular upgrade due to their impressive durability as part of the ultimate security kit. These stunning handles are highly secure, and can stop gripping tools designed to snap off handles during break ins. Carrying multiple coatings of brass and nickel to ensure robust performance, with a 10-year anti-corrosion guarantee for peace of mind.

Available in a range of colours including: black, white, grey, chrome, stainless steel, gold and rose gold.

Stainless Steel Handle
316 Marine Grade Stainless Steel

The stainless steel handle upgrade has been designed by experts for enhanced performance and durability creating one of the highest quality door handles on the market. 316 Marine Grade Stainless Steel

The suited handle is made from 316 marine grade stainless steel, compared to the industry-standard of 304, giving it long-term resistance to corrosion

ALUNA SLIDER

Sliding patio doors

flood a space with light

The Aluna Slider perfectly frames and enhances an outdoor view while creating a light and bright indoor space in your home. The design transforms entire walls into expanses of secure glass, providing the increased freedom of accessibility while creating a seamless connection between the interior and the outdoors.

The Aluna slider system is an ultra-modern, super-slim sliding patio door solution with double and triple track options with the choice of inline slider or lift & slide.

Engineering-grade hardware allows for silky smooth operation, with the use of narrow profiles. Designed with bottom rails of 42mm and 34mm wide, the system enables vast unobstructed stunning views.

A wide variety of configurations are achievable, including a fixed sash and up to 4 panes, as either inline sliding or lift and slide doors.

If you're looking to enhance the aesthetic appeal and functionality of your home, Aluna sliding doors are the perfect solution. They're not only visually pleasing but also offer easy access to outdoor living spaces. Whether you have a beautiful garden or a cosy balcony, these doors allow you to bring the outdoors inside with ease.

The system is designed for large opening sizes, with market-leading sash sizes achievable of up to 2.5m x 2.7m per pane. Paired with a super-slim interlock of just 25mm, the design offers impressive expanses of uninterrupted views.

The sliding doors also offer excellent thermal performance - with U-values as low as 1.4 U/m²K; effective noise reduction; and high security to PAS24:2022 standards.

The super-slim Aluna slider comes with a range of sleek, complementary hardware available in a variety of colours. Combined with a high-security multipoint locking system, the slider is equipped to keep properties safe and secure.

Hardware and security

Sleek complementary hardware for Aluna Sliders

The super-slim Aluna Slider comes with a range of high-security hardware available in a variety of colours. Combined with a high-security multipoint locking system, the Slider provides safety and security. Check with your manufacturer to see which hardware options they offer.
