ICB PROJECTS

SAFE, SUSTAINABLE, SMART ROOF ENVIRONMENTS

Green Roof Systems

Solar PV Systems

Powerwall Systems

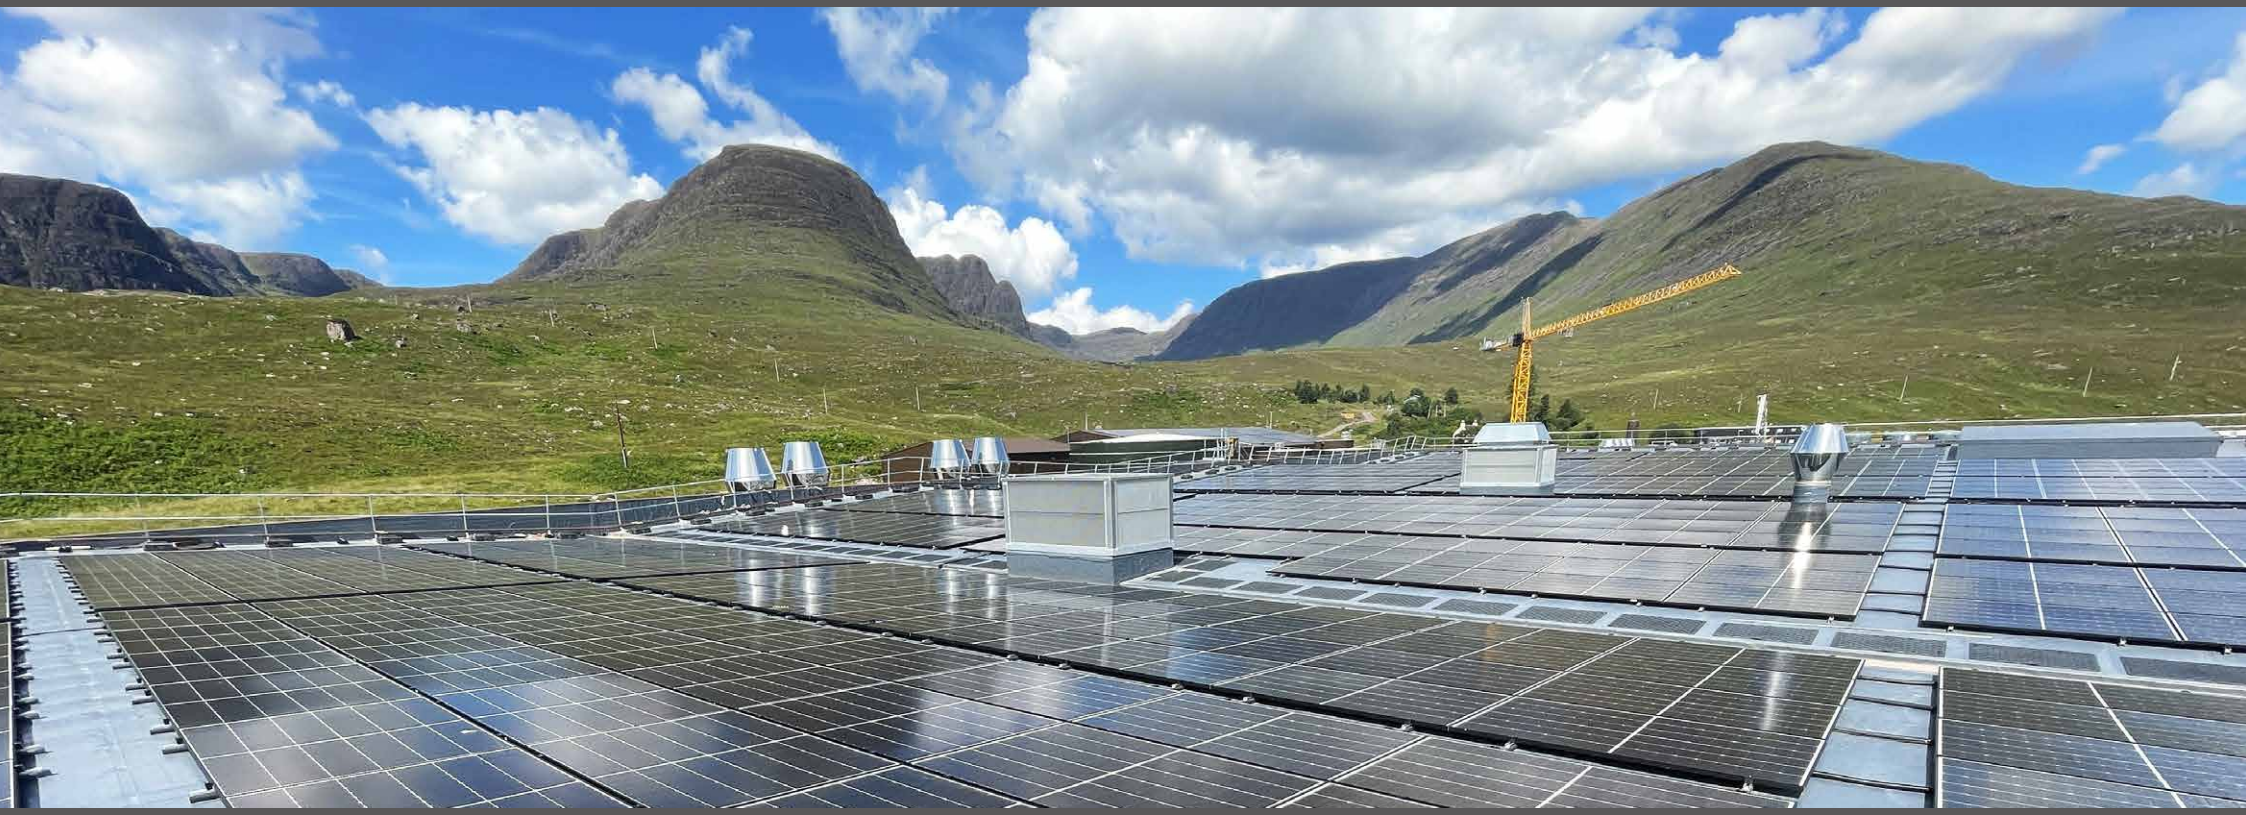

Roof Safety Systems

Rooflight & Vent Systems

Roofline & Bespoke Fabrication

Contracting service specialising in Green, Brown & Blue Roofs, Solar PV, Energy Storage Systems, Roofline & Roof Safety

INTRODUCING ICB PROJECTS

We're serious about credibility and have gained industry recognition for quality by becoming accredited with the following organisations.

ICB PROJECTS

01202 785200 projects@icbprojects.co.uk icbprojects.co.uk

WE'RE ICB PROJECTS, PROVIDING SOLUTIONS FOR ARCHITECTS, MAIN CONTRACTORS, ROOFING CONTRACTORS, DEVELOPERS & PRIVATE CLIENTS.

We offer a complete solution including survey, calculations, design & technical (CAD), supply & installation all backed up by industry leading guarantees as an ISO accredited specialist.

What you'll get from working with us:

✓ FULL SYSTEM SOLUTIONS

From the deck up, working with our sister company, ICB (Waterproofing) Ltd, we can provide you with not only the ancillary products for your project, but a full waterproofing build up too.

Our sister company, ICB (Fabrications) Ltd, is able to produce, on a bespoke basis, a wide range of Fascias, Soffits, Wall Cappings etc., to suit your building project, all engineered to fit your requirements. These products can then be installed by the expert installers here at ICB (Projects) Ltd.

✓ REDUCED MANUFACTURER INTERFACES

Using our contracting services will reduce the number of manufacturers involved, keeping things simple.

✓ SIMPLIFIED WARRANTIES

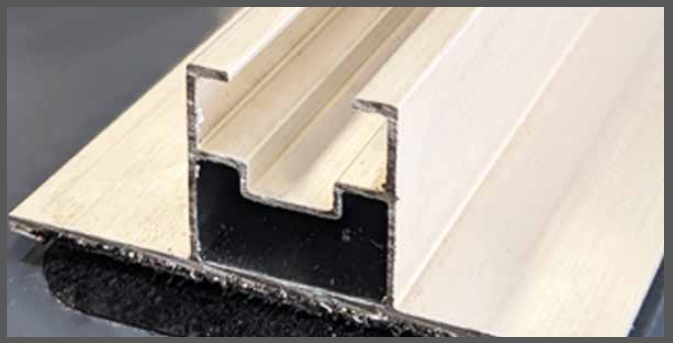

No messing around. No finger pointing. Onsite personnel kept to a minimum. If something goes wrong down the line, working with ICB for your waterproofing and project ancillaries means you have a single point of contact and all relevant elements are guaranteed through one company.

✓ FULLY VETTED

Our own team are highly experienced, and if you choose an ICB waterproofing system, you'll also have access to our network of over 500 Approved Contractors who have been expertly trained in-house, helping you to avoid spending hours scouring through hundreds of customer reviews or hiring cowboy builders.

INTRODUCING ICB SOLAR SOLUTIONS

ICB PROJECTS

01202 785200 projects@icbprojects.co.uk icbprojects.co.uk

WE HELP ORGANISATIONS AND INDIVIDUALS TO FIND THE BEST POWER GENERATING SOLUTIONS.

Solar PV is at the heart of what we do here at ICB. Our focus has always been on fulfilling the demand and needs of the market, and most importantly, our clients.

From day one, we committed ourselves to developing a smarter, innovative PV offering, leaving no stone unturned. Nothing to chance. **Every. Angle. Analysed.** We know that not all projects are the same. We delve into every aspect of each project on an individual basis to ensure that not only the most suitable panels are selected, but also to look at the project as a whole, considering other system components such as the waterproofing integrity, roof safety requirements for maintenance and potential changes to the site surroundings. We aim to future-proof your investment.

We believe in quality, choice, value and sustainability, which is why over the years we've formed strong partnerships with world-leading manufacturers, trained our design and installation teams beyond the highest industry standards and gained accreditation through key governing bodies. We do the maths. We do the design. We do the installation. We do the maintenance. We do the guarantees. You reap the rewards.

BATTERY STORAGE SYSTEMS

Battery Storage Systems are maintenance free!

Once installed there is no maintenance required for the battery storage solution.

It'll be kept up to date through firmware updates and can be controlled with a smartphone.

ICB PROJECTS

REDUCE ENERGY BILLS WITH OUR COST EFFECTIVE BATTERY STORAGE SYSTEMS.

Sleek design and intelligent software meet sustainability and off-grid independence.

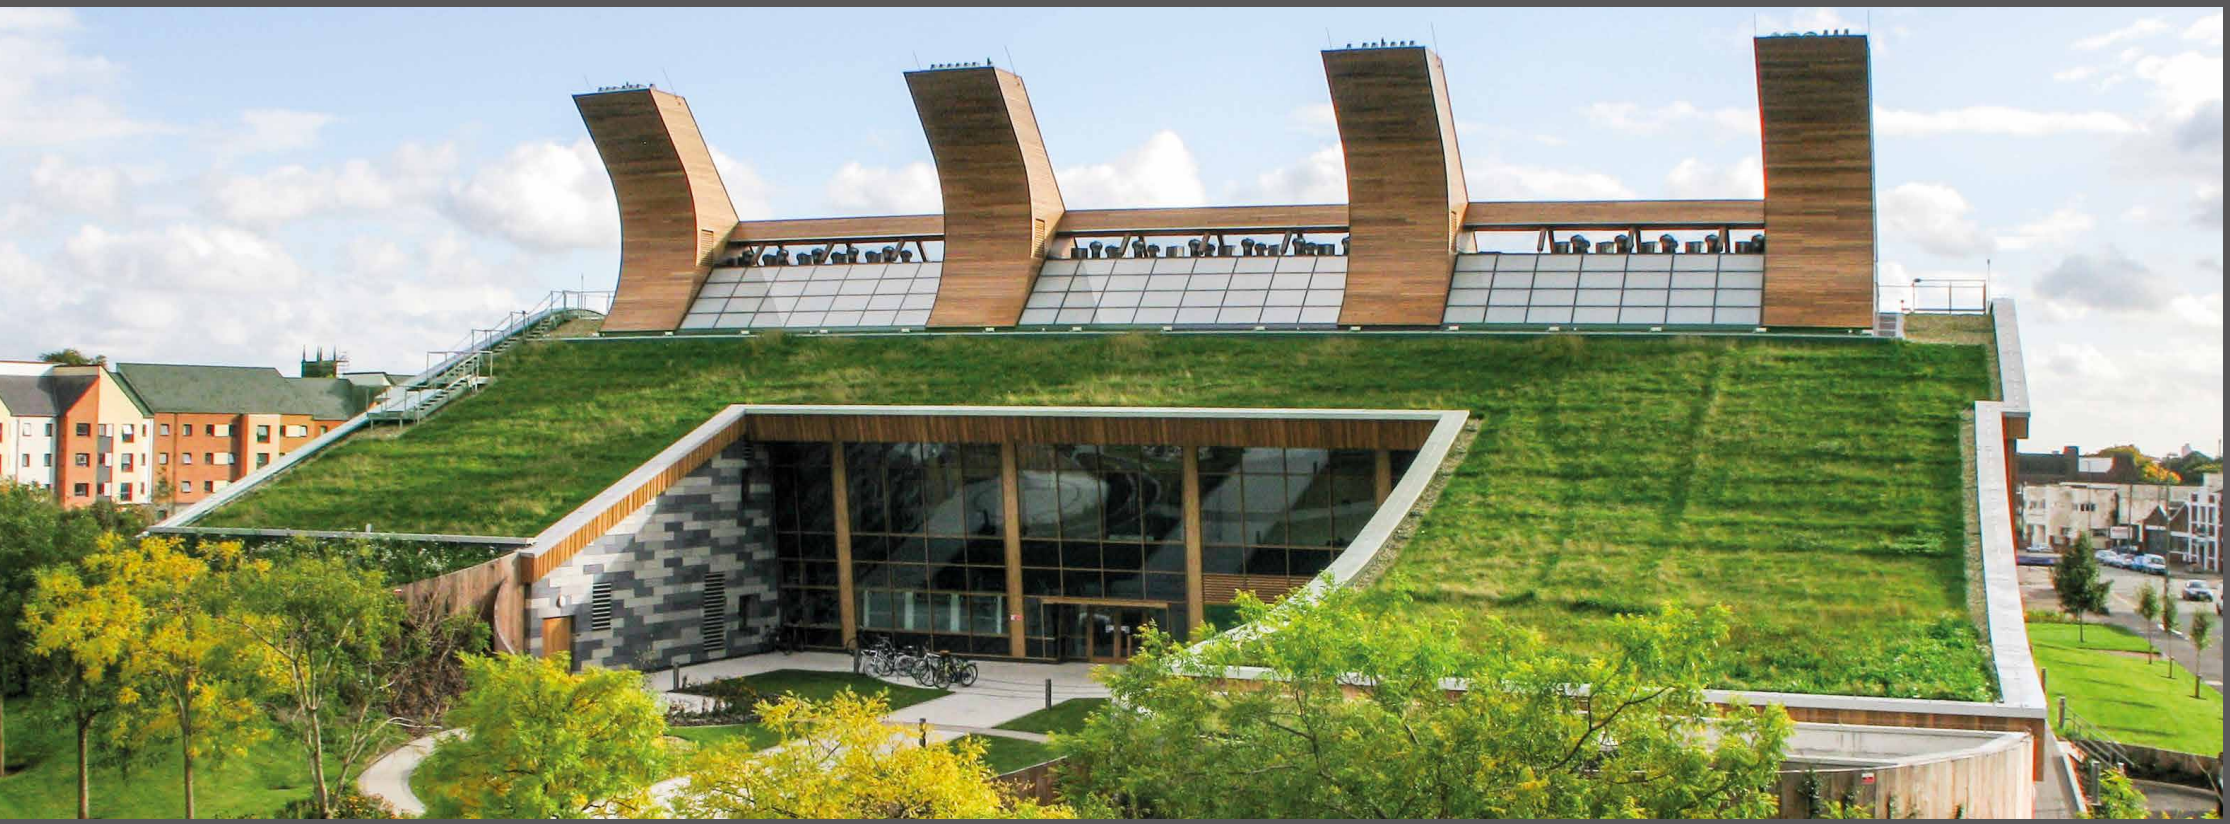

Battery storage is a valuable technology that enables storing electricity for future usage. It operates by harnessing the power generated from solar PV panels during daylight hours and incorporating battery storage into the system. By doing so, this stored energy can be efficiently utilised whenever it is needed, ensuring comprehensive reliability and security.

Intelligent software plays a crucial role in supporting energy storage systems by dynamically optimising energy usage, resulting in reduced energy bills. These systems can ensure uninterrupted power supply to buildings, even in the event of an outage, while also contributing to a cleaner environment by emitting fewer pollutants compared to fossil fuels over their lifespan.

Whether it's a DC or AC storage system or a hybrid solution, we offer a range of options to find the ideal fit for any structure.

- ENERGY INDEPENDENCE: STORE EXCESS RENEWABLE ENERGY FOR LATER USE, REDUCING RELIANCE ON THE GRID.
- COST SAVINGS: REDUCE ELECTRICITY BILLS AND POTENTIALLY EARN REVENUE.
- ENERGY MANAGEMENT: OPTIMISE ENERGY USAGE AND REDUCE PEAK LOAD STRESS ON THE GRID.
- RENEWABLE INTEGRATION: INTEGRATE RENEWABLE ENERGY SOURCES EFFECTIVELY INTO THE GRID.
- SCALABILITY AND MODULAR DESIGN: EASILY EXPAND AND UPGRADE AS NEEDED

GREEN ROOF SYSTEMS

Developed to meet every type of eco-friendly specification.

Our EvaGreen green roof systems are backed up by full technical and design resources even down to assistance with choice of planting. The systems have been carefully developed to give a quality installation that the building owner can be proud of.

ICB PROJECTS

01202 785200 projects@icbprojects.co.uk icbprojects.co.uk

ECO FRIENDLY GREEN ROOF SYSTEMS CAREFULLY DEVELOPED BY EXPERT TECHNICIANS.

EvaGreen is the ultimate green roof system. It has been developed to meet every type of ecological specification, from extensive low-maintenance installations to elaborate intensive planting.

Benefits of Green Roofs:

- Assists with biodiversity and lends a habitat to local wildlife and vegetation.
- Blends in with the surrounding landscape and improves the appearance of industrial or commercial buildings.
- Offers a long life expectancy to the roof. Creates an attractive, extended living space.
- Reduces thermal shock to the building, its roof and substrate.
- Allows the building to consume less energy due to excellent insulant properties.
- Acts as a dust and nutrient filtration system for the atmosphere due to its natural carbon dioxide absorption and removal system.
- Improves the microclimate.
- Acts as an ideal acoustic insulant with excellent noise reduction.
- Helps to balance water tables in highly developed areas or areas prone to flooding due to better absorption and slow release of rainwater.

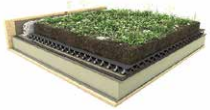

We also offer affordable, comprehensive maintenance packages to suit your needs.

HARD LANDSCAPING

We always follow the Green Roof Organisation's "GRO Green Roof Code of Practice" for both design and installation, giving you the peace of mind that your green roof meets the highest expectations.

ROOFLIGHT AND ACCESS SYSTEMS

Made to measure!

With a comprehensive range of both standard and bespoke engineered rooflights and access systems, we can create systems suitable for domestic and commercial projects.

ICB PROJECTS

01202 785200 projects@icbprojects.co.uk icbprojects.co.uk

SUPPLY, DESIGN AND INSTALLATION OF BESPOKE ROOFLIGHTS AND ACCESS SYSTEMS.

BARREL VAULT

A curved rooflight with a wide bay centre enabling maximum daylight area.

DOMES

Thermoformed rooflights designed to make optimum use of natural light.

BESPOKE GLAZING

Special glazing rooflights, which can be supplied in a number of designs to provide architectural detail to a project.

MONOVISION

A silicone sealed unit removing the need for flashings and external cappings, giving a flush look and feel.

CANOPY

Suitable for both commercial and residential projects and available in a number of designs to suit individual requirements.

MONOPITCH

A common rooflight choice due to their versatility and universal style, allowing them to be used in a variety of projects.

Fully compliant and aesthetically pleasing, we have the right solution for your project.

SMOKE VENTS (AOV)

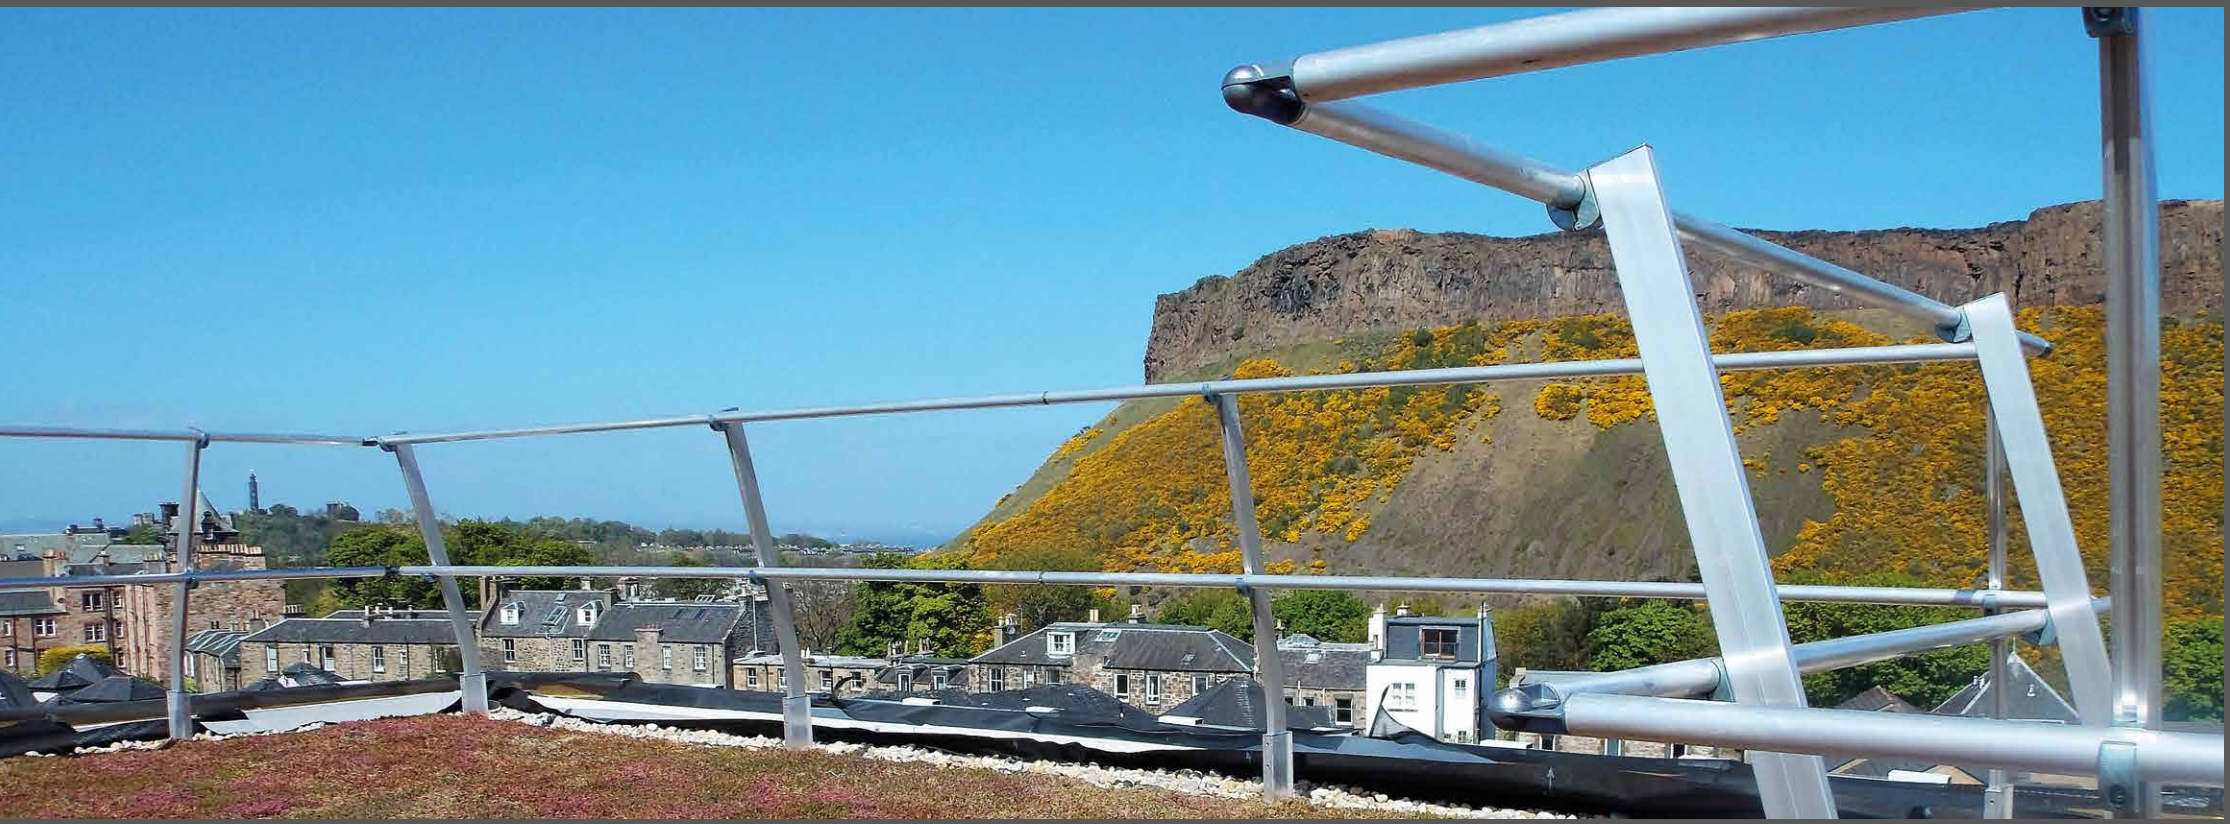

Our smoke vents are electrically operated, which allows the release of smoke and heat from buildings in the case of fire.

ACCESS/ESCAPE HATCH

Our roof access hatches provide safe access to and from roof areas.

ROOF SAFETY SYSTEMS

Your safety, our priority!

For ultimate safety and superior aesthetics, we offer a comprehensive range of roof safety solutions.

ICB PROJECTS

01202 785200 projects@icbprojects.co.uk icbprojects.co.uk

FOR COMPLETE SAFETY AND SUPERIOR AESTHETICS WE OFFER A RANGE OF ROOF SAFETY SOLUTIONS.

We supply, design and install Fall Arrest Guardrail and Balustrade Systems, providing safe working access to roofs without compromising on design preferences.

LIFELINE

We provide a range of leading fall protection systems that are designed to appeal to all parties who come into contact with working at height applications, including safety installer companies, roofing contractors, architects, designers, building owners, and building contractors.

PANORAMA® CST

The aluminium freestanding balcony system for public and private roof areas. It combines technology and aesthetics perfectly.

BARRIAL GUIDERAIL SYSTEMS

The Barrial Guardrail system is a fixed or free standing aluminium edge protection for flat roofs without public access It's an innovative modular system that can be adapted to all circumstances.

PANORAMA® SERIES S

The balustrade system for public access roof areas and balconies. With our Panorama® Series S the possibilities are endless.

ONE OF THE FINEST BESPOKE METAL FABRICATION SERVICES IN THE UK.

ICB FABRICATIONS

ICB Fabrications are specialist fabricators and suppliers of stunning aluminium architectural profiles. Their solutions offer exceptional outcomes in design accuracy, operational performance, installation ease & environmental impact.

As part of the ICB Group, ICB Fabrications continue the service with Bespoke Fabrications on a Supply-Install basis.

Not sure where to start? You can come to us for all your drawing design needs too! All of our solutions deliver exceptional results in design accuracy, minimalism, ease of installation, and environmental impact. For your peace of mind, we are ISO accredited for quality, environmental management, and health and safety standards.

Whilst aluminium offers many advantages, we can fabricate building elements using a wide range of materials including aluminium, membrane coated aluminium or stainless steel and galvanised steel.

Our team is as capable as it is willing. You can rely on our knowledge, expertise and technical excellence to deliver cost-effective solutions on time, every time.

Choosing ICB Projects, ICB Fabrications and ICB Waterproofing means benefiting from a single point warranty.

EXPERTS IN PREMIUM WATERPROOFING SYSTEMS & SOLUTIONS.

ICB Waterproofing offer a comprehensive range of solutions including single ply membranes, liquid applied systems, and reinforced bitumen membranes.

As part of the ICB Group, they offer a comprehensive range of solutions including single-ply membranes, liquid applied systems, and reinforced bitumen membranes. ICB Waterproofing is the UK's sole distributor of the alwitra® range. Every system we provide is backed by industry-leading technical support, design expertise, and full project guidance — from concept to completion.

Working closely with architects, contractors, and developers, we tailor our solutions to meet the unique requirements of each project, ensuring long-term durability, sustainability, and compliance with the latest regulations.

Need design support? ICB's in-house team can assist with everything from roof surveys and condition reports to full system specifications. All waterproofing systems are BBA certified and come with robust warranties for peace of mind.

As an ISO-accredited company, ICB upholds the highest standards of quality, environmental care, and health and safety across every project. With decades of experience and a proven track record, you can trust ICB Waterproofing to deliver watertight results — on time, on budget, and built to last.

Choosing ICB Projects, ICB Fabrications and ICB Waterproofing means benefiting from a single point warranty.
