

# ► Hands-Free Ladder

## Features and Benefits

- High grip rubber feet to guard against outward slip
- Twin rubber wheels for high level lateral grip
- Tool tray to keep hands free for use
- Levelling facility for sloping ground
- Rear stabilising foot to reduce outward slip
- Stand-Off provides comfortable and correct body positioning
- Ladder-tie for securing to wall
- Wide base provides lateral stability and high resistance to roll over
- Rung-lock to fix ladder at desired height
- Harness attachment point for safe work positioning

Simple, safe, solo working.

Safe hands-free working is possible with our high-quality lightweight Hands-Free Ladder. By using the permanently fixed harness attachment and wall tie-in, a whole host of building maintenance tasks can be carried out dual handed.

Hands-Free Ladder has ten built in safety features, making it ideal for all short duration building maintenance tasks. Available as either 3 m, 3.5 m or 4 m double extension ladders.
