

► Sign and Panel Lifter

Features and Benefits

- Stand-off at top of ladder
- Ladder stabilisers
- Rope and pulley hoist
- Safety clutch
- Ladder lock

Safe, quick means of lifting lightweight objects up to ladder height.

Sign and Panel Lifter is a simple but effective means of safely lifting and positioning any item that requires fixing at height. Designed primarily as a means of positioning screens when securing vacant property, Sign and Panel Lifter may also be used to lift and position; signs, air conditioning units, aerials, satellite dishes, in fact almost anything up to a maximum weight of 50 kg.

As quick to erect as a ladder, and incorporating safety devices to comply with the Working at Height Regulations, Sign and Panel Lifter allows you to work quickly and safely.

Technical Specification

▶ Lifting capacity	50 kg
▶ Material	Aluminium
▶ Weight	
▶ 4 m double	20 kg
▶ 4.5 m double	22 kg
3 m triple	23 kg
3.5 m triple	27 kg
4 m triple	32 kg

▶ Patent Registration GB2429686

Sign and Panel Lifter is based upon a quality 2 or 3 section aluminium extension ladder. Each with the following permanently fitted unique features:

Stand-Off - positioning the ladder at a comfortable distance away from the wall and providing a high resistance to roll-over.

Bottom Stabilisers - folding, adjustable 'spurs' providing lateral stability and an increased resistance to slip.

Rope and Pulley Hoist - allowing the user to safely hoist up to 50 kg whilst only 'feeling' 25 kg due to mechanical advantage of 2:1.

Safety Clutch - a one way clutch to secure the load automatically at any convenient position.

Ladder Lock - a spring loaded catch that automatically locks the sections of ladder together during use.

Load Fixing - the standard fixing is by spring clip, alternatives are available to suit various applications.
