

▶ Ladder Safety Accessories

Features and Benefits

- ▶ Heavy duty rubber feet provide high levels of grip
- ▶ Rubber covering prevents damage to face of building
- ▶ Quick and simple to retro fit to any ladder
- ▶ Eliminates the need for 'second man footing'
- ▶ Easily transportable

Ladder Safety Accessories, safe, solo working from Easi-Dec.

Our range of ladder accessories offer clever devices to fit onto existing ladders in line with HSE guidelines.

It is a requirement of the HSE that the rungs of a ladder must be levelled before use. Using our Anchor-Fix device, not only does it greatly help top stability by widening the base of the ladder, it also enables the ladder to be set up on a slope of up to 15° quickly and easily levelling the base to the optimum position.

The Ladder-Spurs prevent outward slip by increasing the base of your ladder and significantly reduce the chance of a sideways slip at the top. Fitted easily and quickly with heavy duty ratchet straps, the independent spurs simply wrap around the ladder stiles. They can be attached at any height position to allow for sloping ground, and eliminate the need for 'second man footing'.

Finally, the Ladder Stand-Off incorporates a large 'V' which allows the ladder to span around down pipes or rest on corners of buildings. The top of the ladder is kept 330 mm off the wall making it useful when working under eaves.

LADDER PRODUCTS

Easy levelling

Technical Specification

Anchor-Fix

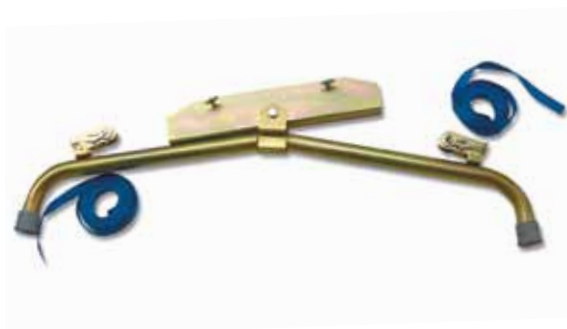

▶ Maximum slope angle	15°
▶ Maximum stile size	7 cm
▶ Maximum ladder width	45 cm
▶ Weight	5.2 kg
▶ Base width	98 cm
▶ Clearance	9 cm
▶ Material	Aluminium and steel

Ladder-Spurs

▶ Width at base	75 cm plus ladder width
▶ Maximum stile size	12 cm x 3.5 cm
▶ Weight	5 kg
▶ Reach	50 cm
▶ Material	Steel

Stand-Off

▶ Width	99 cm
▶ Stand-Off distance	33 cm
▶ Maximum rung diameter	4 cm
▶ Weight	4 kg
▶ Material	Aluminium

Anchor-Fix

Ladder-Spurs

Stand-Off
