

EQUILUX SHUTTER CURTAIN STYLES

CompactDUO

The CompactDUO curtain profile ensures a very high level of security, and is suitable for openings up to 3200mm in width. The compact nature of the curtain also ensures the rolling zone is kept to the minimum. Incorporates the Lockdown technology as standard for advanced security.

CompactDUO Premium

The CompactDUO Premium curtain is the first of its kind, and has been developed specifically to suit prime residential requirements. Offering a combination of solar control, blackout and security for the discerning luxury residential property owner. Suitable for openings up to 3200mm in width.

UltraDUO Profile

The high strength profile for openings up to 8000mm wide ensuring maximum security for added peace of mind. This curtain style is also used across the high security Equilux shutters and has received successful testing to LPS 1175, Issue 7, Security ratings 2 and 3 – designed to protect against high domestic threat levels.

UltraDUO Vissio 20 Profile

The CompactDUO curtain profile ensures a very high level of security, and is suitable for openings up to 8000mm in width. The compact nature of the curtain also ensures the rolling zone is kept to the minimum. Incorporates the Lockdown technology as standard for advanced security.

Minima Profile

For properties that are extremely challenged with space to install a security shutter – the Minima shutter requires only a very small rolling zone. Especially suited to refurbishment projects where scope to change the existing building is limited through planning or listed building restrictions.

Minima Vissio Profile

The Minima Vissio curtain style has the same extremely compact rolling zone requirements as the Minima curtain but with the added benefit of perforation to provide vision and airflow through the shutter.
