

EMERGENCY ASSIST

ALARM RANGE

Emergency Voice Communication System

The Emergency Assist Alarm Kit has been specifically designed to integrate disabled call functions into the EVCS network or EVCS compact ranges.

The Emergency Assist Alarm Stand Alone Kit provides the perfect solution for conformity with the Building Regulations Document M and Equality Act 2010.

This is a simple 2 wire system that has been specifically designed to meet the needs of disabled service users and conforms to all the relevant requirements; Disability Rights Commission code of practice, English Tourism Council Recommendations and RNIB signage guidelines.

The use of combined high output blue LED indication and buzzer ensures a response to the call. The Emergency Assist Alarm Stand Alone Kit comprises of all the components needed to install a fully compliant system, with additional parts available separately.

EMERGENCY ASSIST FEATURES

- Complies with regulations & recommendations
- Dual loop pull cord
- High contrast labels
- Blue indication
- Quick and simple installation, with limited cabling requirements
- High contrast printing for increased visibility
- Tactile braille signage to assist partially sighted people to easily operate the cancel Plate

TYPICAL SYSTEM ARCHITECTURE

4 WAY SPITTER UNIT TECHNICAL SPECIFICATION

POWER SUPPLY UNIT
