## ORDERING ASSISTANCE

For easier ordering of the AKW Made to Measure screens, you can download our Made-to-Measure Screen Order Form from our website [www.akw-ltd.co.uk/types/bathrooms/shower-screens/care-screens/made-to-measure/](http://www.akw-ltd.co.uk/types/bathrooms/shower-screens/care-screens/made-to-measure/) or photocopy pages 24-26.

# How to Hand AKW Screens

To hand an AKW screen, if you imagine you are stood on the outside corner where the 2 sides meet whichever side is the longest that is handing.

For example, using an Option A below, you can see that the Left handed has the longer side on the Left and the Right handed has the longer side on the Right.

## Trifold Screens

There is a difference between how Trifolds are handed for WFs compared to AKW Screens:

- + WF = Handed by the Trifold
- + AKW = Handed by the largest side

## Useful Information For AKW Alternative Screens

- + Silverdale is the equivalent to Luxe finish on WF Screens
- + **L/R** in the product code denotes whether the screen is Left or Right handed
- + **N** in the product code denotes that the screen is Non-handed
- + **C/F** in the product code denotes whether the screen has a Clear or Frosted finish (Silverdale only)

## Standard Shower Screens

All AKW standard shower screens are designed specifically for the mobility and domestic markets and are both extremely practical and stylish.

- + 360° bi-fold doors maximise access by opening inwards and outwards
- + PET frosted panels provide shatterproof glazing and added safety
- + Multiple configurations available to accommodate every application
- + Doors are easy to operate with rising butt hinges
- + Made-to-measure screen service manufacturing almost any screen combination to your requirements
- + Lifetime warranty
