

Making beautiful spaces simple

brettlandscaping.co.uk

Welcome to Brett Landscaping

At Brett, we are modern in our thinking. As the UK’s largest independent paving and kerb manufacturer, we are a trusted and established independent business that anticipates your project requirements, is proactive, and has integrity in everything we do. We don’t just manufacture products; we help create outside experiences. We prioritise doing it responsibly, sourcing materials from sustainable resources while complying with the most current legislation on sustainability and its environmental impact.

It’s a time of significant change; our built environments, including suburban developments, need clever thinking to enable planning authorisation, which can affect designs and aspirations, such as important consideration towards surface water run-off and consequential flooding challenges. This is why our Customer Service teams, Technical Support teams and Sales teams are fully trained to offer the advice you need for a successful project – from beginning to end.

Our commitment to delivering on our promises is exemplified by Brett, who simplifies the process of achieving your goals with us. This ensures that you can be exactly where you want to be, without any complications.

Brett. Built on relationships.

Alpha Burnt Oak and High Kerb Charcoal

“Walkers The Builders Merchant Ltd. are over 40 years in business this year and Brett have been our preferred supplier of block paving for as long as we can remember!”

Paul Alford, Buyer at Walkers The Builders Merchant Ltd.

A photograph of a modern garden. On the left is a red brick wall. In the center is a curved lawn bordered by a stone path. In the background, there's a wooden fence and some plants. The sky is blue.

Built on relationships

With Brett, everything is made that little bit easier and more exciting – and with a straightforward attitude. We are a trusted and established independent business, one of the UK's leading providers of construction and landscaping materials. We prioritise understanding our customers, domestic and commercial, through innovation, collaboration, knowledge and support. Our expertise, technical capabilities, and commitment to investing in new technologies and design enable us to help our customers create the finest, most beautiful, inspirational outdoor spaces. Our products are manufactured from high-quality concrete, porcelain or ethically sourced natural stone, including block paving, paving slabs, kerb systems and permeable chippings.

'What can we do for you' sounds much better than 'what we do'. It's a philosophy that's built our business. A business built on relationships.

Our Markets, Our Relationships

Domestic

With the increasing interest in gardening programmes, home renovation, and self-build projects, the UK residential landscaping sector continues to prove one of the UK's favourite pastimes. The UK's ornamental horticulture and landscaping market made an estimated £42 billion contribution to national GDP by 2030. It contributed to around 568,700 jobs across the country, equivalent to 1 in every 62 jobs.¹

1. Garden Industry Statistics from the Horticultural Trades Association. hta.org.uk

Commercial

As new residential and commercial developments become more commonplace, and with the drive to push greener, more sustainable, and better-designed urban landscapes, the products used must be compliant, suitable, exciting, and beautiful. With today's construction regulations, planning challenges and directives around wellbeing and sustainability, we'll work with you from the beginning of your project to ensure a straightforward process, from your design to BIM modelling support, building regulations and the most suitable way to lay our products. We also provide comprehensive Environmental Product Declarations (EPDs) for our product range.

Eden Limestone Mink & Aura Bronze Fleck

Product sectors

For our audiences: Architects, Landscape Architects, and Developers to Contractors and Homeowners, the Brett Landscaping range of products has been the 'go-to' outside space solutions. They've been developed to satisfy a catalogue of applications, to create inspiring surroundings while helping towards environmental integrity.

GeoCeramica® Bluestone Gris Claro

Garden Paving

Our garden products are more than just paving; they can create architectural landscapes and transform people's homes and their way of life. Our products enable possibilities. From the soft, aged lines of the traditional to the crisp appearance of the contemporary, our products can turn gardens into masterpieces.

Eclipse Grande Lastle Beige

Block Paving

Brett block paving offers high-performance systems that combine elegant aesthetics with fast, simple installation processes while offering almost endless design possibilities, combining texture, colour and size with complementary kerbing and edging options. They're as beautiful for any driveway application as they are in high-impact, prestige city centre environments, Sustainable Drainage Systems (SuDS), landscaping applications, and highly-trafficked situations.

Lugano Graphite Grey

Commercial Paving

Our extensive paving ranges have been developed to enhance the most ambitious developments, providing flexibility in design, style, and installation. From our interchangeable flag ranges to our sleek GeoCeramica® Porcelain ranges, you can be sure of prestige products that create elegant, hardworking, durable, easy-to-maintain outside spaces to complement your scheme.

GeoCeramica® Impasto Grigio

Kerbs & Channels

Our complementary ranges of kerbs and channels not only deliver a striking design addition to any paving project but are essential water management components that, using longitudinal gradients within the footpath's design, direct surface water run-off to a suitable drainage point into natural soakaways or engineered SuDS. With our commitment to sustainability and achieving a more decorative finish, especially within the residential market, our range of Meltone and Yorktone kerbs complement our more traditional paving products for that perfect look. Domestic kerbs include Alpha & Drivestyle Kerbs, High Kerb and Omega Kerb, developed with a 200mm length, enabling fewer units to create borders and boundaries, saving installation time whilst offering excellent value.

High Kerb Autumn Gold

Paving Accessories

At Brett, we constantly research our product range to ensure it meets our customers' demands and aspirations. So, we're not just experts in the finest natural stone, concrete, and porcelain paving products, but we can also help you choose, plan, and design the ultimate outside space. We complement our paving ranges with Brett kerbs, edging, decorative gravels, porcelain walling and accessories, and permeable chippings.

Tempest Volcanic Ash

Permeable chippings.

To satisfy more technically challenging projects, such as SuDS schemes, we have a wide range of permeable chippings to complement our permeable paving ranges.

Silver Ice permeable chippings

Brett pedestals.

It's no secret that open space in urban centres is becoming increasingly scarce. As architects and developers look to maximise indoor and outdoor living space, previously under-utilised roof areas are becoming an increasingly tempting prospect.

From social amenities and car parks to retail environments and green relaxation areas, rooftop spaces can be as usable as any ground-level area. With Brett's range of pedestal systems, Dreen® Fixed Plate Pedestal System and our unique Fixed Head Lock Plate Pedestal System, we can help make your rooftop project a reality.

GeoCeramica® Fiordi Sand

Specialist Kerbs

Brett Landscaping is recognised as the UK leader in designing and manufacturing specialist kerb systems. Our Kassel Bus Boarding and Trief containment solutions are renowned for their innovative designs and high levels of vehicle and pedestrian protection. When specifying Trief, we also offer a comprehensive design service to help ensure that you get the optimal solution. As part of this service, we can also produce bespoke units to complete your project.

Our Specialist Kerbs are also complemented by our range of specially designed components, including quadrants, flat blocks, ramps, radial, and transition kerbs. These allow the design of a wide range of solutions to address varying site constraints and safety considerations.

Kassel Bus Boarding Features and Benefits

- DDA compliant, providing enhanced safety for disabled, elderly or visually impaired passengers and those with pushchairs without delays
- Tactile diamond-shaped top surface for increased passenger slip resistance
- Available in three heights to provide a vertical/horizontal gap of less than 50mm for improved passenger access and safety
- Available in cast concrete or cut granite
- A range of quadrant and radial units are available to create comprehensive bus stop or station solutions
- Single piece product design provides greater durability than 'built-up' systems
- Compatible with Brett's tactile, flag and concrete block paving ranges

Trief GST2

Brett Approved Installer Scheme

Becoming a Brett Approved Installer can help you grow your business through working with high-quality products that customers trust. You'll also benefit from further hands-on experience, training, advice, and support, and you'll be first in line for our latest product developments and special offers. You'll have access to design and quotation services and expert advice from Brett Technical Support, working with you to determine the products and procedures for your specific job. It's all part of establishing you as the Installer of choice within your local area.

For just £25 a month, joining the scheme will provide you with access to the following:

- **Part of a community with like-minded professionals**
- **Technical & business support & assistance**
- **Promotional merchandise, marketing support templates & PR**
- **Opportunity to be included in the Brett-branded literature**
- **Membership Starter Pack**
- **Personalised log in to private Brett Approved Installer website portal**
- **Use of scheme logo(s)**
- **Membership certificates**
- **Inclusion on the 'Find an Installer' page of the Brett Landscaping website**
- **Invitation to join the Facebook Brett Approved Installers Talk group**
- **3rd party associated companies & offers**
- **Attractive fixed rates for direct to site pricing on selected premium products**
- **Conference & awards ceremony**
- **Loyalty rewards scheme – every time you buy and register your installation online, you earn!**

The three-tier scheme system

We have two starter schemes available to get you off to a great start. Both offer great incentives; you can get into everything Brett can provide you with as a Brett Approved Installer or start gradually with Brett Rewards. Once you have been an Approved Member for 12 months, you could be selected as a Brett Premier Approved Installer in recognition of your exceptional work and commitment to the Approved Installer scheme.

BRETT REWARDS

BrettApproved
PAVING EXPERTS YOU CAN TRUST

BrettApproved
PAVING EXPERTS YOU CAN TRUST

If you're interested in joining our community of Brett Approved Installers, please call **0345 60 80 578** or email us at **bai@brett.co.uk**

The confidence of a **quality referral**

As a Brett Merchant or Stockist, you can rely on the support of a trusted, independent business and the quality of our beautifully crafted products. The added reassurance that you can also recommend a trusted Installer can help enhance your reputation and encourage related sales.

Invicta 300x100 Pearl, Moonstone & Onyx

Quality Installers – Vetting process enables merchants to refer customer to quality installers, enhanced reputation for all. Promoting excellence in all aspects of installation and Service.

More Business – All BAIs must have a nominated stockist where they will purchase Brett products encouraging related sales such as sand, ballast, drainage etc.

Stock Profiling – Regular custom helps to build an efficient stock profile.

Credit Checking – Installers are credit and company checked upon application and at regular intervals by Brett, minimising risk.

Greater profit – The scheme provides an incentive to BAI's to use premium Brett products increasing turnover and profit.

Support – Network of BAI Managers to support the scheme to maximise sales conversions.

Case study

A tranquil porcelain garden: elegance in every corner

Welcome to a garden of tranquility. This outdoor space boasts multiple patio areas, each offering its own unique charm and purpose.

As you step into the garden, your eyes are immediately drawn to the first patio area. Here, a contemporary water feature takes centre stage, crafted with our Tempest porcelain walling in Volcanic Ash. The gentle flow of water creates a soothing atmosphere, making it the ideal spot for relaxation. Surrounding this water feature, you'll find a sunbed lounge area, thoughtfully constructed with our Eclipse Porcelain in Stellar. The contrast between the dark Eclipse Porcelain and the Elegante Quartz Porcelain in Greige adds a touch of modern sophistication to this tranquil oasis.

A leisurely walk around the home leads you through multiple arches, guiding you to another hidden gem within this garden paradise. Along the Aura Block Paving pathway in silver fleck, you'll discover a beautiful hot tub area and an outbuilding. The patio here is constructed with our Elegante Quartz Porcelain paving, chosen for its water-resistant qualities, making it the perfect Italian tile for wet areas. Whether you're soaking in the hot tub or using the outbuilding as a private escape, this area provides a haven of relaxation and luxury.

Eclipse Stellar, Elegante Quartz Greige and Aura Silver Fleck

Case study

Alpha paving provides a warm welcome home in Market Bosworth

Hornsey Rise is a small development of nineteen luxury residences built within nine acres of countryside, on the site of a former care home, with exceptional views across the rolling countryside and down onto the site of the famous Battle of Bosworth. The site has also incorporated a historic war memorial and a chapel building that is still in use.

The properties have been carefully planned with every detail in mind, finished to a first-class standard using the highest quality specification and build materials. This includes the extended driveways connecting each home to the main access road.

Brett Landscaping's Alpha Driving block paving offered a perfect fit for the aesthetic of the development, while meeting the required product performance once in place. The block paving, supplied in colours including Silver Haze, Autumn Gold and Brindle, in a range of 210mm (Large), 140mm (Medium) and 105mm (Small) size packs were used to create access ways for vehicles and pedestrians as well as driveways for each residence.

Alpha Silver Haze

The contemporary block paving, which takes its cue from antique stone, complements the traditional brick and wood look of the homes, with the distressed look and feel of the paving helps to tie together the overall aesthetic of the estate.

Alpha Silver Haze & Autumn Gold

Associated Businesses

Brett Group

Through a thorough understanding of our audiences, Brett has become one of the largest independent construction and building materials suppliers in the UK. With a comprehensive customer support package, together with our expertise, innovative development programmes and ultimate customer knowledge spanning over 100 years, Brett can confidently bring you products and services to make even the most complex project easier.

Brett Aggregates

Brett Aggregates supplies a wide range of traditional and recycled products from our 32 sustainably managed quarries, as well as from the seabed together with Britannia Aggregates and Volker Dredging. To bring your outside spaces to life, we can comfortably offer the most comprehensive aggregate portfolio to help you realise your vision. From decorative finishes and landscaping highlights to permeable water management solutions, our aggregates provide a lasting, durable, yet simple-to-install aesthetic to your projects.

Brett Concrete

Our Brett Concrete operation includes 17 quality-controlled plants across South East England producing ready mix and floor screed solutions for every type of construction project.

Capital Concrete, London

Our partner, Capital Concrete, increases our capability with batching plants serving the London area – from Bow, Croydon, Rainham, Romford, Wembley and our large-capacity plant at Silvertown.

Granite Products, Jersey

At Brett, we want to ensure we can offer a world of possibilities for all our construction industry clients. Which is why we have Granite Products. Based in Jersey, Granite Products supplies aggregate, ready-mixed concrete and concrete blocks. Since 1946, we've supplied housing developments and successfully completed a number of major projects within the commercial sector including a new control tower for Jersey Airport.

Resources

To help our customers enjoy the very best outcomes for their projects, we've invested in ensuring our website is as informative as it is exciting for our customers and includes simple-to-access information from useful BIM objects, product calculators and CPD opportunities to providing handy downloads.

BIM

We have developed a comprehensive selection of free-to-use BIM objects to help you design and plan your projects whilst getting the best out of our products. Available in industry-neutral IFC format and formats compatible with Autodesk Revit, ArchiCAD, Vectorworks, Tekla and Bentley, Brett is the ideal partner to help make outside space easy.

CPD

At Brett, we know a great job doesn't rely solely upon our products. Which is why we offer RIBA Accredited and non-accredited CPD presentations to help you build on your skills whilst achieving points towards your annual requirements.

Invicta Citrine, Pearl and Onyx

NBS Plus

Brett is all about making outside space easy. Not surprising, then, we've partnered with the National Building Specification (NBS) to provide our customers with complete NBS Plus product listings. This service has been created to help specify our products into customers' projects, bringing a thorough understanding of what's suitable to help the design and planning process.

RIBA Plan of Works

The right landscape can enhance a building or development design, which is why we establish good working relationships with the right people to deliver a scheme to be proud of. Brett works with RIBA and The NBS to provide the widest range of specification tools to enable Architects and Designers to create great looking landscapes to complement ground-breaking developments.

Resources

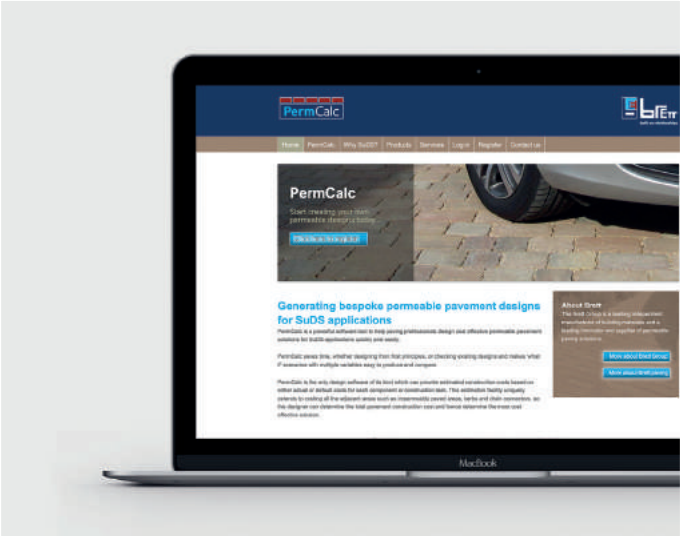

Trief Containment kerb

Trief Kerb Radius Calculator

The Brett Trief Containment Kerb has been helping to improve road safety in the UK for over 50 years, and has been specially engineered for curved as well as straight sections of the carriageway. To ensure radial planning is accurate, we've developed a calculator tool that works out the calculations, creates a pdf and emails it directly to the customer's email address. To find out more please visit: brettlandscaping.co.uk/professional

PermCalc

Brett understands the challenges the building industry faces today, including having to deliver sustainable water management solutions to meet current regulations. As a leading innovator of permeable paving solutions, Brett designs cost-effective permeable pavement solutions for SuDS applications, and we've developed PermCalc to help Contractors and Specifiers save time when determining the total pavement construction cost. PermCalc is the only design software of its kind which can provide costed design for both the hydraulic and structural requirements of a permeable pavement, based on either the actual or default cost for each component or construction task. To discover how PermCalc can help you get it just right, visit www.permcalc.co.uk

Omega Flow Burnt Oak

Ethical Trading Policy

At Brett, we’re known for our high-quality products and impeccable customer service, but more,we’re recognised for our credibility, integrity and trustworthiness.

We’re committed to upholding the highest ethical standards, and as such, we actively monitor our supply chain with a view to ensuring that our suppliers are working to provide a moral code for the treatment of workers across the World.

Brett collaborates to help improve working conditions and best manage our environmental impacts, ensuring our sites meet the RSP Guidelines, to help improve working conditions and minimise the environmental impacts for the long-term benefit of everyone.

Responsible sourcing

Brett Landscaping is committed to a policy of no harm within our supply chains. We ensure that we achieve this through a number of auditable processes.

Brett Landscaping was one of the first manufacturers within our sector to achieve certification to the BES 6001 Responsible Sourcing of Construction Products and now hold the highest ‘Excellent’ rating highlighting how well we perform as a business.

A key part of this is that we report annually to all of our stakeholders via our website; if you want to see how well we performed please visit brettlandscaping.co.uk

Carbon Reduction

Since 2011 Brett Landscaping has been actively measuring our carbon usage across all of our hard landscaping products, reducing our carbon usage year-on-year.

Our Our business leaders are accountable for ensuring that we:

- Support Government and the MPA’s Net Zero strategy and comply with relevant legislation for reducing carbon emissions
- Meet industry level targets from relevant trade associations such as the Mineral Products Association and the British Ready Mixed Concrete Association.

Environmental Product Declaration (EPDs)

Brett Landscaping has worked with the Mineral Products Association (MPA) to develop industry-leading Environmental Product Declarations for our concrete paving and kerb products. These are independently verified by a third party and can be accessed by visiting www.brettlandscaping.co.uk/professional/sustainability

Ethical Sourcing of Natural Stone

At Brett Landscaping, we ensure our sites meet stringent RSP Guidelines to help us best manage our ethical trading activities in the highest risk areas of our business.

Policies

Corporate Social Responsibility

Brett Landscaping aims to do everything possible to build strong, long-lasting relationships with local communities in the areas where we operate. And we maintain our sites to ensure people, communities and businesses are protected from any hazards or dangers.

We are also keen to get involved with community and employee sponsorship and charitable donations, including donating construction materials, time and expertise via our Community Engagement.

Community Engagement

We are passionate about the design and creation of enjoyable and accessible environments within the local community, as well as at home. Such spaces, especially those which promote greenery, trees and wildlife, bring people together, helping to build and protect our most valuable national resource; outside space.

Brett Landscaping helps support individuals and communities who have a desire to renovate public outdoor spaces. We've been involved in many admirable schemes in the past and look forward to supporting future developments, to give something back and make a difference to the environment for future generations to enjoy.

UKCA Marking & Declaration of Conformity

All Brett Landscaping products, along with products from across the Brett Group, have been extensively tested and proven to conform to the relevant UKCA (UK Conformity Assessed) and European Standard(s). This is your assurance that they are safe to use and fit for purpose.

To obtain a copy of the CE Certificate and/or Declaration of Performance (DoP) relating to any Brett products, please visit our website at brettlandscaping.co.uk

Should you have any additional questions regarding these certificates, or the technical specification for any of our products, please contact the Brett Landscaping Technical Services Department by e-mailing us on landscaping.enquiries@brett.co.uk or by calling **0345 60 80 579**.

Please note – CE certification is not required for any materials where there is no harmonised European product standard available.

Eden Sandstone Porcelain Spring Blend

Sustainability

For over 110 years, Brett has embraced its corporate and social responsibilities to customers, and the wider communities in which we work to enhance the built environment and the lives of the people who use it. Brett is a business proud of its independent status, strong values, and a real, tangible passion for a sustainable future.

With that philosophy firmly in place, we continue to work to reduce our impact on the environment, minimising our energy usage and maximising the recyclability of our materials; developing product solutions and services to enhance the built environment and the lives of the people who use it.

Brett is a business proud of its independent status, strong values, and a real, tangible passion for a sustainable future.

BRE Green Guide

The BRE Green Guide to Specification provides an independent assessment and endorsement of the law for the environmental impact of construction materials. Materials and components are assessed in terms of their environmental impacts, across their entire life cycles. The guide provides easy-to-use guidance on how to make the best environmental choices when selecting construction materials and components.

The information helps specifiers to design, construct and manage buildings to reduce environmental impacts. These rankings are presented on an A+ to E scale, based on life cycle assessments (LCA), using environmental profiles methodology. The guide covers a range of generic building types and elements.

Most Brett products are top rated, enabling you to specify our hard landscaping systems with the confidence of achieving an A or A+ Green Guide rating. In turn, this positively contributes when constructing specifications using BREEAM to assess the sustainability characteristics of the structure and its hard landscaping.

SUSTAINABLE DEVELOPMENT GOALS

Sustainable Development Goals

Our sustainability strategy is a strong mission for positive change through cross-functional collaboration to deliver sustainable operations, a resilient supply chain, and a commitment to drive social and environmental change.

Environmental Goals:

From working towards our 'Remove or Reduce' plastic packaging strategy to our investments at manufacturing sites to provide sustainable and renewable energy solutions, we take responsibility to ensure we minimise the impact we have on the environment.

7

AFFORDABLE AND CLEAN ENERGY

11

SUSTAINABLE CITIES AND COMMUNITIES

12

RESPONSIBLE CONSUMPTION AND PRODUCTION

13

CLIMATE ACTION

15

LIFE ON LAND

We actively support the United Nations' Sustainable Development Goals (SDGs) and make an ongoing commitment to keep them at the core of our strategy, ensuring we make an impact toward building an inclusive, sustainable, and resilient future for people and the planet.

Economical Goals:

Through product innovation and purposeful material waste recycling we continue to ensure the products we produce contribute towards building sustainable cities and communities. As an independent business, we understand the importance of transparency. We strive to ensure our sustainability credentials are clear, precise, and attainable.

9

INDUSTRY, INNOVATION AND INFRASTRUCTURE

11

SUSTAINABLE CITIES AND COMMUNITIES

12

RESPONSIBLE CONSUMPTION AND PRODUCTION

Social Goals:

We care about our people and the people around us. From supporting individuals and communities who have the desire to renovate public outdoor spaces to ensure our employee's Health, Safety, and Mental well-being are protected by ongoing our Vision Zero campaign.

3

GOOD HEALTH AND WELL-BEING

5

GENDER EQUALITY

8

DECENT WORK AND ECONOMIC GROWTH

The future looks good

Urban landscapes are changing for many reasons; climate change, new regulations on greener, more sustainable developments and, particularly within the residential sector, the desire for more inspirational outdoor spaces. These are exciting times in the construction sector – bold, subtle, extravagant, minimal, contemporary or traditional. Together, we can create the environments needed to satisfy the style of a more modern world, the necessities of ever-more environmentally aware customers, and the practicalities to enhance projects representing value for money.

With new technologies and our ongoing commitment to responsibly sourcing our materials, we aim to help Architects, Landscape Architects, Designers, Contractors, Homeowners, Merchants, and Installers create outside spaces that make a real difference.

At Brett, we focus on the 'human' element: delivering collaborative, straightforward service and quality products. It's how we've built our relationships and how we'll help provide a more beautiful, practical, sustainable future landscape.

Brett. Built on relationships
