

CM39

Matt Sealer 25ltr

A matt equivalent of HSS

CM56

Charcoal Release Agent 10kg

Powdered release agent producing a secondary antiqued effect

CM40

Xtraseal 25ltr

More viscous than HSS useful in cold weather or on porous concrete

CM314

Charcoal Colour Surface Hardener 25kg

Coloured dryshake topping for all PIC and decorative concrete installations

CM41

High Solid Sealer (HSS) 25ltr

Used throughout the industry for sealing PIC and decorative concrete installations

CM334

Biscuit Colour Surface Hardener 25kg

Coloured dryshake topping for all PIC and decorative concrete installations

CM42

Low Solid Sealer (LSS) 25ltr

A low solid equivalent of HSS especially useful for reseals & hot weather conditions

CM336

Platinum Grey Colour Surface Hardener 25kg

Coloured dryshake topping for all PIC and decorative concrete installations

CM55

Mahogany Release Agent 10kg

Powdered release agent producing a secondary antiqued effect

CM357

Avon Stone Colour Surface Hardener 25kg

Coloured dryshake topping for all PIC and decorative concrete installations

ACID**Acid Wash 25ltr**

For achieving uniformity of secondary colour removal

**CM48A****Cleaning Solvent / Thinners 25ltr**

For cleaning out sprayer units & cleaning spillages plus stripping large areas of sealer & colour washing

**ASA****Rhino Grip**

Anti slip agent for use with PICS sealers

**CM48B****Picstrip 25ltr**

Heavy duty sealer stripping agent

**CM20****Monofilament Fibres 0.4kg**

6mm fibres

- 1 bag per m3 of concrete
- reduces surface drying/shrinkage

**CM90-99****Joint Filler**

Low Modulus silicone for filling top of control joints - colours to suit (see Colour Chart)

**CM44A-Z****Colour Tints**

Dry powder for use when colour washing & achieving uniformity & antiquing (see Colour Chart)

**LIQRELAG25****Liquid Release Agent 25ltr**

For internal projects where powdered Release Agent is not suitable

**CM48****Cleaning Solvent / Thinners 5ltr**

For cleaning out sprayer units & cleaning spillages plus stripping very small areas of sealer & colour washing

**RELWAS****Release Agent Wash 25ltr**

For ease of removal of Release Agent and uniform secondary colour effect

**WALLGEL****Wall Gel 10kg**

Brush on protection for brickwork & areas in contact with concrete and coloured products - covers 22m²

PAVE

PICS
ANCILLIARIES

CM61**Polythene - 25mu gauge**

Covers 1000m² - sub-base membrane, garden and weather protection

**CM100****Expansion Joint Material**

Easy to use foam joint material on a roll - for isolation and expansion joints

**HT510H****Wheelbarrow Heavy Duty Galvanised**

Heavy duty metal for placing and moving concrete

**FUNNEL****Heavy Duty Funnel**

For ease of filling sprayer unit - avoid spillages

**HT510G****Wheelbarrow**

Standard metal for general site use

**HT520****10ltr Gloria Sprayer Unit (Viton)**

Heavy duty Viton Seals equipped all-round unit for sealer application

**HT512****Joint Filler Applicator Gun**

Ideal for applying joint filler into control joints

**HT5PL12****Industry 12ltr Viton Sprayer Unit**

Viton seals equipped all round unit for sealer application

**HTSU****4ltr Viton Sprayer Unit**

For spray application - infrequent use (clean with Cleaning Solvent / Thinners CM48)

**SP20****7.5ltr Acid Sprayer Unit**

For spray application of Picstain

CM62

Shuttering Pins
10mm x 300mm long
- mild steel pins to retain shuttering

CM62A

Shuttering Pins with Holes
Ideal for easy fixing of shuttering to
correct height

CM63

Steel Shuttering
100mm x 2400mm reusable
flexible steel - for planters & tight curves

CM65

Inset Manhole Cover
650mm x 550mm recessed
trays with integral lifting points - for concrete printing

CM73

Inset Manhole Cover
300mm x 300mm recessed trays for inspection chambers - for
imprinted concrete

CM73A

Inset Manhole Cover
450mm x 450mm recessed
trays for inspection chambers - for concrete printing

CM81

Strip Drainage Channel
(Silver)
Lightweight plastic unit with galvanised grating

CM81B

Strip Drainage Channel
(Black)
Lightweight plastic unit with plastic grating

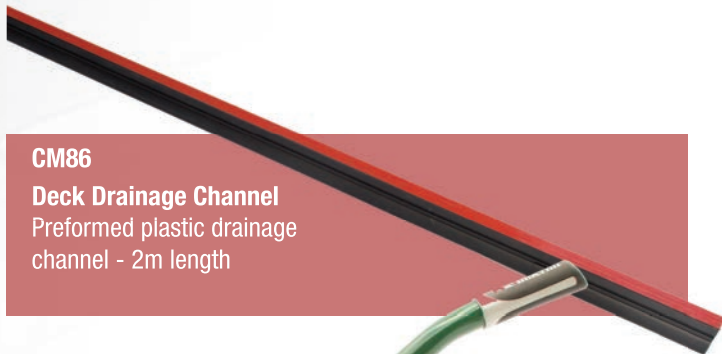

CM81BS

Shallow Strip Drainage Channel
Lightweight plastic unit with popular
galvanised grating

CM86

Deck Drainage Channel
Preformed plastic drainage
channel - 2m length

ANCILLIARIES

DTAPE**Barrier Tape**

500m Red & White danger tape to protect concrete from public access

**HT435****Dust Filter Masks**

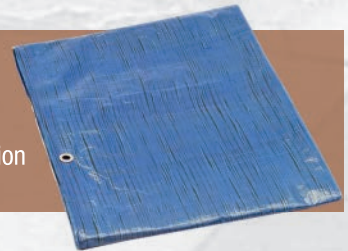

Protection against dust particles e.g. when applying CSH & RA

**DUCTTA****Duct Tape**

Heavy duty adhesive for sticking polythene and other coverings

**HT1644****12 x 10 PVC Tarpaulin**

Covers 10m²
- cost effective cover or protection from spills

**HT042****Utility Knife**

Knife for general site use

**HT1872****Rigger Gloves**

Heavy duty gloves for general site use

**HT069****Kneeling Board**

Light robust pads for access across concrete with minimal retrowelling

**PBBUCK****Black Builders Bucket**
3 1/4 Gallon Bucket**HT069WS****Kneeling Board with Stand**

Heavy duty stand allows for maximum standing access across concrete

**PBGLOLAT****Latex Gloves**

Protect hands from cement when working with concrete or applying CSH

**HT410****Plastic Safety Goggles**

Protection for eyes against dust e.g. when applying CSH & RA

**POVER****Lightweight Dust Suit**

Ideal for protecting against Release Agent and other dust

CSHSCOOP**Aluminium Scoop**

For ease of application of CSH - increased application coverage

**HT102****12" Stiff Sweeping Broom**

Stiff bristle yard broom
- use with Thin Broom Handle (HT106)

**HT555****36" Sealing Broom**

Used to ensure full penetration of sealer

**HT212B****12" Heavy Duty Sealing Broom**

Natural Bristle Head for applying sealer / working sealer into joints - use with Thin Broom Handle (HT106)

**HT103****Soft Broom**

Fine split fibre finish for brushing CSH on alloy mould imprinted projects

**HT556****24" Release Agent Sweeping Broom**

Pure bristle durable broom for removal of excess Release Agent

**HT009****Specialist Concrete Rake****- Aluminium**

Lightweight rake designed for fast concrete placing

**HT104****12" Sealing Broom**

Coco Bristle Head for applying sealer / working sealer into joints - use with Thin Broom Handle (HT106)

**HT901****Concrete Spreader**

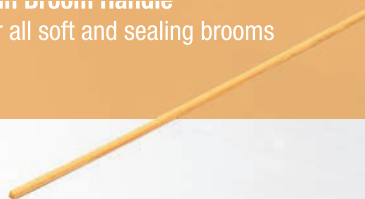

For fast placing of concrete

**HT010****Specialist Concrete Rake****- Magnesium**

Lightweight rake - with wider head and top-toothed edge

**HT106****Thin Broom Handle**

For all soft and sealing brooms

**HT925****Imprinting Mat Impactor**

Ensures imprinting mats are tamped to desired depth

**HT012****Texas Placer Rake**

Strong lightweight aluminium with heavy-duty braces for added strength

**HT429****Telescopic Handle**

For extra reach when using with a concrete finishing broom

**HT928****Heavy Duty Mat Impactor**

Larger and rubber coated tool - ideal for use with alloy moulds
