ARBOBOND PRO®

Universal Adhesive

THE ULTIMATE ALL-WEATHER BOND
FOR MODERN CONSTRUCTION

www.arbo.co.uk

ARBOBOND Pro®
Universal Adhesive

ARBOBOND Pro® Universal Adhesive is a solvent free, one part moisture curing adhesive based on modified polymer technology which when cured give a strong flexible bond which is over paintable.

Why Choose ARBOBOND Pro® Universal Adhesive?

- Superior Versatility: One solution for metal, brick, block, and most common construction substrates.
- All-Weather Performance: Bonds effectively to both dry and damp surfaces. Maintains a tough, flexible bond with a service temperature range of -40°C to +150°C.
- Extreme Durability: With a service life of over 20 years.
- Paintable Surface: Once cured, the surface is fully paintable for a seamless finish.
- Advanced UV Resistance: Engineered to resist yellowing and degradation from sunlight.
- Flexible Bond: Once cures forms a flexible to accommodate elongation of ±35%.
- High Anti-Pick Quality : For secure units and areas.

Terms & Conditions: Offer on a box of 25 x 290ml cartridges. No cash value offered. Offer applicable till stocks last or by 31st March, 2026.

Technical Data	
Colour	White
Skin Time at 20° C/65 % RH:	20 minutes
Application Temperature:	+5°C to + 40°C
Service Temperature:	-40°C to +150°C
Typical Shore A Hardness:	50
Cure Rate at 20°C/65 % RH:	1 - 2mm/24 hours NB: Through cure rate will be retarded where passage of moisture to the centre of a large amount of product occurs.
Chemical Resistance:	Resistant to most dilute acids and alkalis. Organic solvents may cause the sealant to swell and lose adhesion
UV Resistance:	Very good
Service Life:	20 years +
