Timloc Building Products is one of the UK's leading manufacturers of building products for the residential market. Based in Howden, East Yorkshire, we design, manufacture and supply building product solutions from ground level right up to the roof ridge. Trust Timloc to deliver with our unrivalled NEXT DAY delivery service with a low carriage paid order value of just £100 to branch or £150 direct to site.

The Roofline by Timloc range encompasses the ancillary products required within a roofing application. Our products range from ventilation systems for roofs, eaves and soffits to one-kit solutions for dry ridge and hip installations. All of Timloc's products are backed up by our industry expertise and continuous product innovation.

WHY **TRUST TIMLOC** WITH THE FULL PACKAGE?

- Independently tested to relevant standards
- Quality, reliable and durable products
- Wide range of ventilation, ancillary and dry fix solutions available

- Time saving installation process
- Full data sheets available on our website
- Unrivalled next working day delivery service on most products

Timloc Building Products is a **carbon neutral manufacturer**

At Timloc, we manufacture and supply sustainable building products designed to be integrated into the fabric of a building from ground level right up to the roof ridge. 75% of the products we manufacture are made from recycled materials and all of our products are made to last.

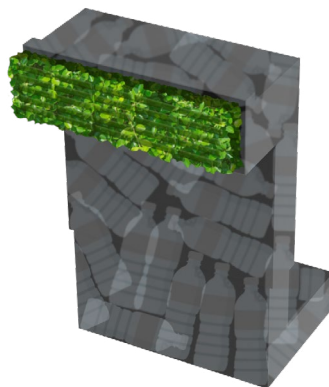

OUR JOURNEY TO **CARBON NEUTRALITY**

In 2021, Timloc became the **first building products manufacturer in the UK to achieve a carbon neutral status** after implementing various green initiatives to reduce and offset our carbon emissions to zero. 100% of our electricity is now generated from renewable energy sources, electric cars have been added to our fleet, and we have invested heavily in energy-efficient machinery, all of which contribute to our carbon neutral status.

Approximately 70% of our packaging is produced from recycled materials and **100% of our packaging is recyclable**.

All Timloc products experience a rigorous testing process prior to launch to ensure we only supply the highest quality products to market. The recycled materials we use originate from a variety of sources including plastic bottles, plastic trays and plastic car parts, such as bumpers and dashboards. The raw material produced as a result of the recycling process is robust, versatile, and environmentally friendly.

Trust Timloc to know the score...

VENTILATION

ALLOWING ROOFS TO BREATHE

PUSH-IN SOFFIT VENT

Predominantly used in refurbishment, push-in soffit vents are a convenient method of providing ventilation through an existing soffit board. 70mm diameter. Will achieve a free airflow of 10,000mm² when spaced at 200mm centres.

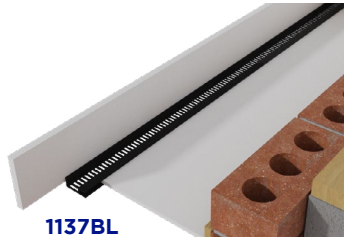

1139

Product Code	Free Airflow	Colour	Pack Quantity	Lead Time
1139	10,000mm ²	Grey	10	Next Working Day
1140	10,000mm ²	White	10	Next Working Day
1141	10,000mm ²	Black	10	Next Working Day
1142	10,000mm ²	Brown	10	Next Working Day

SOFFIT VENT TYPE C

Efficient strip type eaves ventilator for use on roofs where the eaves incorporate a soffit board of between 6mm and 9mm in thickness.

1137BL

Product Code	Free Airflow	Colour	Pack Quantity	Lead Time
1137WH	10,000mm ²	White	10	Next Working Day
1137BR	10,000mm ²	Brown	10	Next Working Day
1137BL	10,000mm ²	Black	10	Next Working Day
1138WH	25,000mm ²	White	10	Next Working Day
1138BR	25,000mm ²	Brown	10	Next Working Day

CORBEL VENT

Designed for use with corbelled brickwork details and used for roof eaves ventilation on roofs where ventilation equivalent to a continuous 10mm opening is required. Free airflow 10,000mm² and 2.4m in length.

Product Code	Pack Quantity	Lead Time
3012	10	Next Working Day

OVER FASCIA VENT

Durable and multi-purpose primary roof ventilator suitable for new build and refurbishment projects. An over fascia vent is used when the fascia board is fitted in the ends of the rafters, creating a situation where ventilation can only be positioned over the top of the board. Available in 300mm lengths.

Product Code	Free Airflow	Colour	Pack Quantity	Lead Time
3011BL	10,000mm ²	Black	10	Next Working Day
3011BR	10,000mm ²	Brown	10	Next Working Day
3011WH	10,000mm ²	White	10	Next Working Day
3011/25BL	25,000mm ²	Black	10	Next Working Day
3011/25W	25,000mm ²	White	10	Next Working Day

1M OVER FASCIA VENT

Efficient and durable primary roof ventilator supplied in convenient 1m lengths.

OF1BL

Product Code	Free Airflow	Colour	Pack Quantity	Lead Time
OF1BL	10,000mm ²	Black	25	Next Working Day
OF1WH	10,000mm ²	White	25	Next Working Day
OF2BL	25,000mm ²	Black	20	Next Working Day
OF2WH	25,000mm ²	White	20	Next Working Day

OVER FASCIA VENTILATION SYSTEM

Multi-functional primary roof ventilation system supplied in 1m lengths. Combining eaves protector/felt support and over fascia eaves vent in one convenient and easy to install unit. Available with or without integral eaves comb filler.

Product Code	Free Airflow	Eaves Comb	Pack Quantity	Lead Time
3014C	10,000mm ²	Yes	10	Next Working Day
3014	10,000mm ²	No	20	Next Working Day

ROLL FORM EAVES VENT ROLL OUT RAFTER TRAY

Designed to maintain ventilation between insulation and roofing felt to prevent the build-up of condensation. Suitable for new build and refurbishment work.

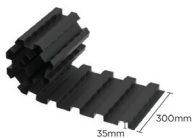

Product Code	Pack Quantity	Lead Time
1121	10	Next Working Day
1171	12	Next Working Day
1131	5	Next Working Day
1151	6	Next Working Day

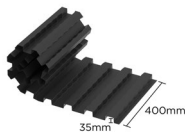

All available in 6m lengths and >25mm depth of ventilation channel.

FELT SUPPORT TRAY

Suitable for new build and remedial work, the felt support trays are designed to prevent damage to roofing felt at the eaves of a roof and to replace worn or perished roofing felt.

3017

Product Code	Description	Pack Quantity	Lead Time
3017	Felt support tray 1500mm	10	Next Working Day
1128	Felt support tray 600mm	20	Next Working Day

EAVES COMB FILLER

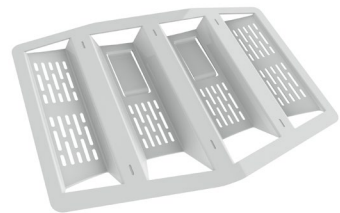

Easy to install eaves comb filler that effectively prevents the entry of birds and rodents beneath profiled roof tiles. Depth of comb 55mm and supplied in 1m lengths.

Product Code	Pack Quantity	Lead Time
1136	50	Next Working Day

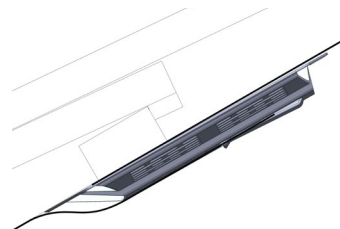

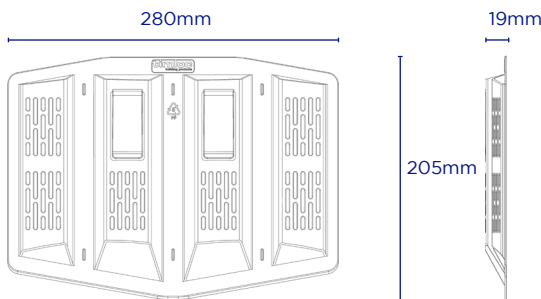

LAP V₃NT

Refurbishment ventilator for existing roof spaces to increase the level of ventilation in a roof space by separating lap joints in the roofing felt/membrane. Also a remedial solution for combating condensation in cold roof voids and can be fitted retrospectively after increased loft insulation.

Product Code	Pack Quantity	Lead Time
5560	10	Next Working Day

5560

DRY FIX RIDGE KITS

Convenient 1-pack mechanical fix solution for roof ridge installations. Designed for use with most types of slate, concrete or clay roof ridge tiles. Suitable for use on new build and existing roof applications.

Pack contains:

- 1 x 6m vent roll membrane with self-adhesive flashing
- 13 x fixing screws and clamping plates
- 13 x ridge unions
- 26 x ridge clips
- 10 x ridge batten straps

Product Code	Description	Colour	Lead Time
54700	6m roll out dry fix ridge kit	Black	Next Working Day

54702	6m roll out dry fix ridge kit	Brown	Next Working Day
54618	13x ridge unions & 26x ridge clips	Black	Next Working Day
54626	13x fixing screws & clamping plates	N/A	Next Working Day

DRY FIX HIP KITS

Convenient 1-pack mechanical fix solution for roof hip installations. Designed for use with most types of slate, concrete or clay roof hip tiles. Suitable for use on new build and existing roof applications.

Pack contains:

- 1 x 6m vent roll membrane with self-adhesive flashing
- 6 x hip trays
- 13 x fixing screws and clamping plates
- 13 x ridge unions
- 26 x ridge clips
- 10 x ridge batten straps

Product Code	Description	Colour	Lead Time
54710	6m roll out dry fix hip kit	Black	Next Working Day

54618	13x ridge unions & 26x ridge clips	Black	Next Working Day
54626	13x fixing screws & clamping plates	N/A	Next Working Day

INTEGRATED DRY FIX **RIDGE KITS**

Convenient 1-pack mechanical fix solution for roof ridge installations. Designed for use with most types of slate, concrete or clay roof tiles. Suitable for use on new build and retro-fit projects.

AVAILABLE IN BLACK ONLY

3M ROLL OUT DRY FIX RIDGE KIT

Pack contains:

- 1 x 3m vent roll membrane with self-adhesive flashing
- 7 x fixing screws, washers and clamping plates
- 7 x ridge unions with integrated clips
- 5 x ridge batten straps

6M ROLL OUT DRY FIX RIDGE KIT

Pack contains:

- 1 x 6m vent roll membrane with self-adhesive flashing
- 13 x fixing screws, washers and clamping plates
- 13 x ridge unions with integrated clips
- 10 x ridge batten straps

10M ROLL OUT DRY FIX RIDGE KIT

Pack contains:

- 1 x 10m vent roll membrane with self-adhesive flashing
- 26 x fixing screws, washers and clamping plates
- 26 x ridge unions with integrated clips
- 20 x ridge batten straps

Product Code	Description	Colour	Lead Time

RTV-CTE

Castellated

Profiled roof tile vent to enable ventilation directly into roof space or connect to a ducted ventilation system.

Uses

- On roofs with Castellated profile roof tiles
- For ventilation directly into a roof space
- Can also be connected to a ducted ventilation system inside the building

Compatibility

Castellated large format tiles from all major manufacturers including:

- Marley Ludlow Major
- Redland Renown
- Sandtoft Lindum
- Russell Cheviot
- Lagan Square Top

NB. Available in single, pack or pallet quantities. For pack quantities, 8 tile vent assemblies are packaged in one large box.

RTV-TETE

Thin Leading Edge

Profiled roof tile vent to enable ventilation directly into roof space or connect to a ducted ventilation system.

Uses

- On roofs with Thin Leading Edge profile roof tiles
- For ventilation directly into a roof space
- Can also be connected to a ducted ventilation system inside the building

Compatibility

Thin Leading Edge large format tiles from all major manufacturers including:

- Marley Edgemere
- Redland Richmond
- Sandtoft TLE
- Russell Galloway
- Lagan Elite

INVENTIVE MINI CASTELLATED ROOF TILE VENT

Roof ventilation solutions

17.5°
MINIMUM PITCH

5,000mm²
FREE VENTILATION
AREA

RTV-MCGR

Mini Castellated

Profiled roof tile vent to enable ventilation directly into roof space or connect to a ducted ventilation system.

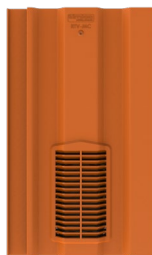

Uses

- On roofs with Mini Castellated roof tiles
- For ventilation directly into a roof space
- Can also be connected to a ducted ventilation system inside the building

Compatibility

Mini Castellated small format tiles from all major manufacturers including:

- Marley Ludlow Plus
- Redland 49
- Sandtoft Standard Pattern
- Forticrete V2

SINGLE PANTILE ROOF TILE VENT

RTV-SPRD

Single Pantile

Profiled roof tile vent to enable ventilation directly into roof space or connect to a ducted ventilation system.

Uses

- On roofs with Single Pantile roof tiles
- For ventilation directly into a roof space
- Can also be connected to a ducted ventilation system inside the building

Compatibility

Single Pantile small format tiles from all major manufacturers including:

- Marley Anglia
- Redland Fenland Pantile
- Sandtoft Shire

INVENTIVE INTERLOCKING PLAIN ROOF TILE VENT

Roof ventilation solutions

Interlocking Plain

Interlocking Plain roof tile vent to enable ventilation directly into roof space or connect to a ducted ventilation system.

Uses

- On roofs with Interlocking Plain roof tiles
- For ventilation directly into a roof space
- Can also be connected to a ducted ventilation system inside the building

Compatibility

Interlocking Plain tiles from all major manufacturers including:

- Marley Ashmore
- Redland Duoplain
- Forticrete Gemini

RTV-UNITE

Universal

Universal roof tile vent to enable ventilation directly into roof space or connect to a ducted ventilation system.

Uses

- On roofs with any type of tile or slate roof covering
- For ventilation directly into a roof space
- Can also be connected to a ducted ventilation system inside the building

Compatibility

The alternative lead flashing sheet allows the Universal Roof Tile Vent to be installed onto all types of tile or slate roof covering.

- *Max free ventilation area of 20,000mm² when cut at 170mm diameter
- *Max free ventilation area of 16,000mm² when cut at 150 diameter
- *Max free ventilation area of 11,000mm² when cut at 125 diameter
- *Max free ventilation area of 8,400mm² when cut at 110 diameter

UNIVERSAL INLINE SLATE VENT

Inline Slate Vent to enable ventilation directly into a roof space or connect to a ducted ventilation system

RTV-ISBL

Uses

- On roofs with Natural or Synthetic Slates
- Enables ventilation directly into a roof space
- Can be connected to a ducted ventilation system inside the building

Compatibility

Natural or Synthetic slates in sizes 300mm (W) x 600mm (H) or 250mm (W) x 500mm (H) from all major manufacturers.

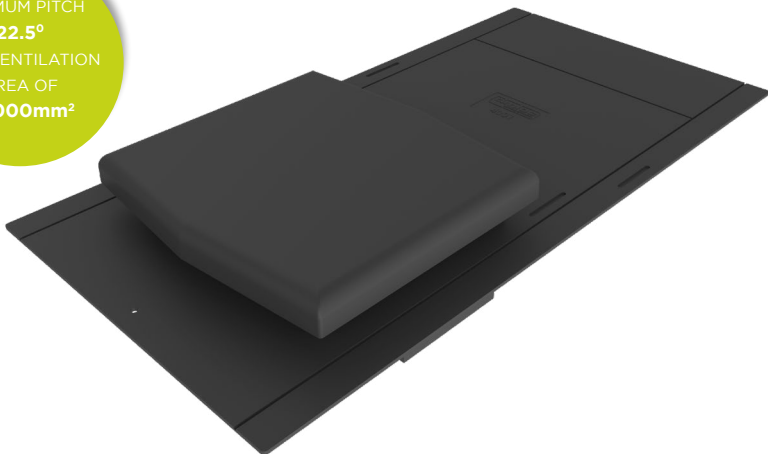

Description	Colour	Box Qty	Product Code	Pack Qty	Pack Code	Pallet Qty	Lead Time
Inline Slate Vent	Black	1	RTV-ISBL	5	RTVMULTI-ISBL	120	Next Working Day

NB. Available in single, pack or pallet quantities. For pack quantities, 5 tile vent assemblies are packaged in one large box.

UNIVERSAL HOODED SLATE VENT

Universal Hooded Slate Vent to enable ventilation directly into a roof space or connect to a ducted ventilation system

MINIMUM PITCH
22.5°
FREE VENTILATION
AREA OF
10,000mm²

4001

Uses

- For replacement of one normal roof slate to provide a ventilator
- Ventilating a roof space at low level or high level
- Connection to mechanical extraction from kitchen/bathrooms
- Ventilation outlet for soil vent pipe

4101

Compatibility

Natural or Synthetic slates in sizes 300mm (W) x 600mm (H) or 250mm (W) x 500mm (H) from all major manufacturers.

Description	Colour	Pack Qty	Product Code	Pallet Qty	Lead Time
Universal slate vent	Black	5	4001	120	Next Working Day

ROOF VENT ACCESSORIES

The 110mm Flexi-Pipe Kits are also compatible with the Timloc RTV-ADMULTI

RTV-KIT1

To connect Timloc Roof Tile Vents to 110mm ventilation duct or soil vent pipe.

Compatible with: **RTV-MC / RTV-SP**

Kit contains:

- 1 x Flexi-Pipe
- 1 x Screw Clamp

RTV-KIT2

To connect Timloc Roof Tile Vents to 110mm ventilation duct or soil vent pipe.

Compatible with:

RTV-C / RTV-DP / RTV-DR / RTV-TE / RTV-FE / RTV-NP

Kit contains:

- 1 x Flexi-Pipe
- 1 x RTV-ADS Standard Adapter
- 1 x Screw Clamp

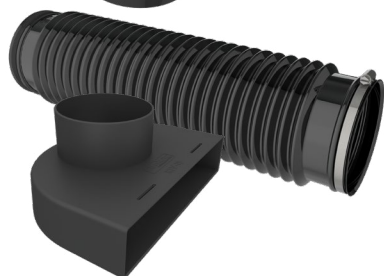

RTV-KIT3

To connect Timloc Roof Tile Vents to 110mm ventilation duct or soil vent pipe.

Compatible with: **RTV-P / RTV-IP**

Kit contains:

- 1 x Flexi-Pipe
- 1 x RTV-ADP Plain Adapter
- 1 x Screw Clamp

RTV-KIT4

To connect Timloc Inline Slate Vents to 110mm ventilation duct or soil vent pipe.

Compatible with: **RTV-IS**

Kit contains:

- 1 x Flexi-Pipe
- 1 x RTV-ADIS Inline Slate Adapter
- 1 x Screw Clamp

Product Code	Description	Box Quantity	Lead Time
RTV-KIT1	Flexi-Pipe + Clamp	1	Next Working Day

INVENTIVE

Roof ventilation solutions

ROOF VENT ACCESSORIES

MULTI STEPPED DUCT ADAPTER

To connect Timloc Roof Vents to various sizes of ventilation duct.

RTV-ADMULTI is also compatible with other Timloc accessories:
RTV-ADS / RTV-ADP / RTV-ADIS / 110mm Flexi-Pipe (RTV-KIT1)

STANDARD ROOF TILE VENT ADAPTER

To provide Timloc Roof Vents with a 110mm ventilation duct or soil vent pipe connection.

Compatible with:

RTV-C / RTV-DP / RTV-DR / RTV-FE / RTV-NP / RTV-TE

PLAIN ROOF TILE VENT ADAPTER

To provide Timloc Roof Vents with a 110mm ventilation duct or soil vent pipe connection.

Compatible with:

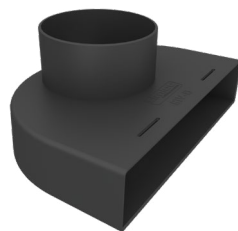

RTV-IP / RTV-P

INLINE SLATE VENT ADAPTER

To provide Timloc Inline Slate Vents with a 110mm ventilation duct or soil vent pipe connection.

Compatible with:

RTV-ISBL

All Roof Tile Vent Adapters are compatible with RTV-ADMULTI and 110mm Flexi-Pipe (RTV-KIT1).
