# AIRTIGHT PLASTIC ACCESS PANELS

## USE

Fully airtight and high-level acoustic performance plastic access panels for providing access to concealed services and connections behind dry lined walls, ducts, ceilings, and cupboard units. An economical solution for providing access to concealed services. Helps to meet the requirements of:

- **Building Regulation Part L** – Conservation of Fuel and Power (air leakage)
- **Building Regulation Part J** – Heat Producing Appliances (concealed boiler flue inspection access)
- **Building Regulation Part E** – Resistance to Sound

# Z-SERIES METAL ACCESS PANELS

## USE

Metal access panels to provide access to concealed electrical, plumbing, and other building services. For applications where plastic access panels are not suitable and a fire rating is not required. An ideal solution for meeting the gas safety industry and Building Regulation Part J's concealed boiler flue inspection access requirements (non-fire rated applications).
