

PLUMBING GUIDE

Plumbing products designed for performance and compliance.

timloc
building products

We are a **British manufacturer** supplying the building industry for almost 60 years

At Timloc Building Products we manufacture and supply sustainable building products from ground level right up to the roof ridge, from our state-of-the-art manufacturing facility in East Yorkshire.

We are committed to sustainable manufacturing and over 75% of products are made from recycled plastics. Our products are designed for use throughout the lifespan of a building and are recyclable at the end of the building life.

RAD-SEAL 15

by timloc

Rad-Seal is the effective **radiator pipe guide and seal** designed to help reduce air leakage in homes. The Face-Fix option is available in 10mm and 15mm options.

Helps to meet **Future Homes Standard 2025 (Part L)**

FACE - FIX

Lower profile than other options on the market

Slim projection just **23.5mm** from the wall

Securely positions pipework into required direction for connection

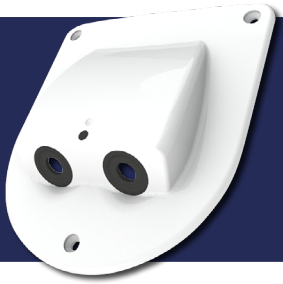

15mm for **Air & Ground Sourced Heat Pump** pipework

Available in **boxes of 20**

Compatible with all standard **back boxes**

Flexible **rubber edge seal** for air tightness

LOFT DOORS

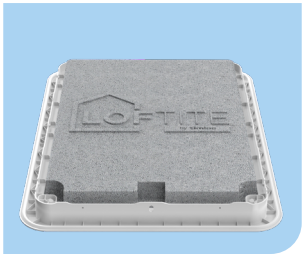

Timloc loft doors are designed to be easy-to-install and provide easy through-ceiling access into the loft space, as well as insulation and draft proofing around the opening in a ceiling.

EPD AVAILABLE

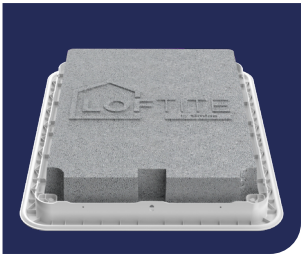

LOFTITE by timloc

Loftite arrives pre-assembled and ready to fit, featuring a precision-engineered frame with an insulated door mounted on stainless steel hinge pins. Dual air seals ensure exceptional airtightness, while twin catches provide a secure and reliable fit.

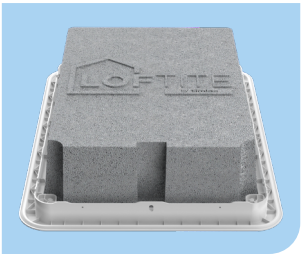

Designed for easy, single-person installation, Loftite includes fitting slots, neat hinge caps, and requires no maintenance or painting. It offers a maximised open access area to allow easy and unobstructed entry to the loft space and is fully compatible with most loft ladders.

LT0035

LT0025

LT0015

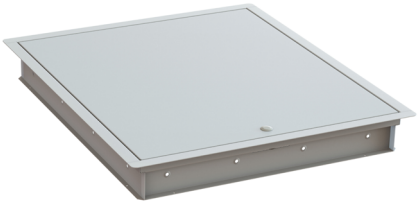

- As standard the U-0.35 insulation option helps to meet the requirements of the Robust Construction Detail.
- The U-0.25 and U-0.15 options help to achieve the higher performance levels required by the Code for Sustainable
- Homes and the Future Homes Standard.
- Meets and exceeds the requirements of The Building Regulations Approved Document L1 & L2 for airtightness.
- Independently performance tested by BRE for airtightness to BS EN 13141-1 2019 and BS 5250 2021.
- Helps to reduce acoustic noise transmission between the ceiling and loft space.

AIRTIGHT PLASTIC ACCESS PANELS

Airtight seal reduces air permeability to 0.00/h.m at +50pa

USE

- Solution for providing access to services and connections behind dry lined walls, ducts, cupboards and ceilings
- Ideal for meeting gas safety industry and Building Regulation Part J's concealed boiler flue inspection access requirements (non-fire rated applications)

Helps to meet the requirements of:

- **Building Regulation Part L1 & L2** – Conservation of Fuel and Power (air leakage)
- **Building Regulation Part J** – Heat Producing Appliances (concealed boiler flue inspection access)
- **Building Regulation Part E** – Resistance to Sound
