

Transparent Design

Dividers-MW is a leading British manufacturer of operable wall system including movable glass walls in the shape of the MGP Series and MGW Series systems.

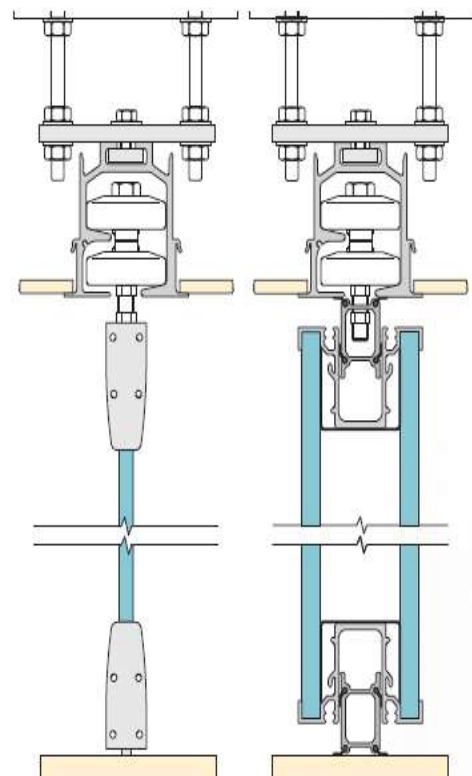

The MGP and MGW series' offers the opportunity to utilise your organisation's spaces for a wide variety of uses while retaining an open plan, visually spacious character.

There is a wide range of possibilities with regard to surface design, with etching, sand-blasted or foil transfer manifestation as some of the main options.

The system can also be used with photograph transfer technology, where any reasonable quality photographic digital file being imprinted into the glass, resulting in stunning visual effects.

MGP/MGW

- ◆ Maximum transparency
- ◆ Curved or faceted construction possible
- ◆ High quality engineered track and trolley system
- ◆ Wide range of stacking and pass door options

Toughened safety glass 10 - 12 mm
Toughened / laminated 5 + 5 mm

TECHNICAL INFORMATION

Type	MGP	MGW
Track System	Single or Twin Point	Twin Point
Panel Thick-	35 mm	100mm
Panel Height	3,000 mm Max	3,000 mm Max
Glass thickness	10 or 12 mm	6 mm double glazed with painted border
Fire rating	Class O	Class O
Seals	Fixed brush	Retractable
Seal operation	N/A	Manual
Doors	Full height hinged	Inset or hinged pass door
Sound	N/A	Rw 35 dB
Weight	35 Kg/m ² approx.	50 Kg/m ² approx.

MGP - Movable Glass Partition

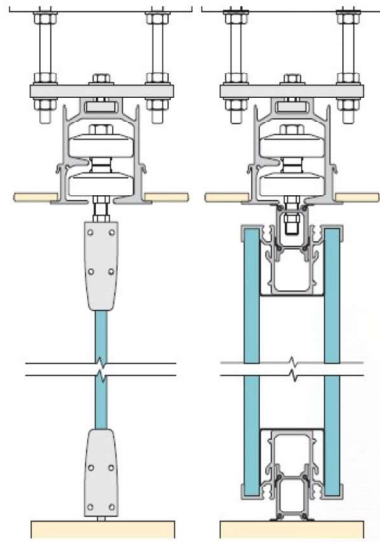

MGW - Movable Glass Wall

Smooth action rollers

70mm x 65mm aluminium head track

Operable top and bottom seals

Isolated aluminium frame construction for enhanced acoustics

Toughened safety glass 10 - 12 mm
Toughened / laminated 5 + 5 mm

Finishes for glass

- Bright, bronze or grey
- Coloured lamination film
- Sandblasted
- Silk screen
- Acid etched

Anodised aluminium profiles top & bottom

Semi-automatic foot bolt

Floor socket with spring loaded dust seal

Anodised aluminium frame finish shown.
Additional finishes are:

Powder coated paint

Polished stainless steel
