CHARCON HARD LANDSCAPING

Our award-winning Charcon range of hard landscaping products offers the industry complete commercial solutions for all types of project, including urban, residential, traditional and contemporary environments.

Natural Stone

As one of the UK's leading suppliers of natural stone products, every one of them exceeds the relevant BS/EN standards. We offer our clients complete reliability in sourcing, processing and supplying a wide variety of types and finishes of natural stone.

Concrete Paving

Our concrete paving offering is made up of 24 ranges. With a selection of textures and colours to choose from, we have a range for every project.

Kerbs

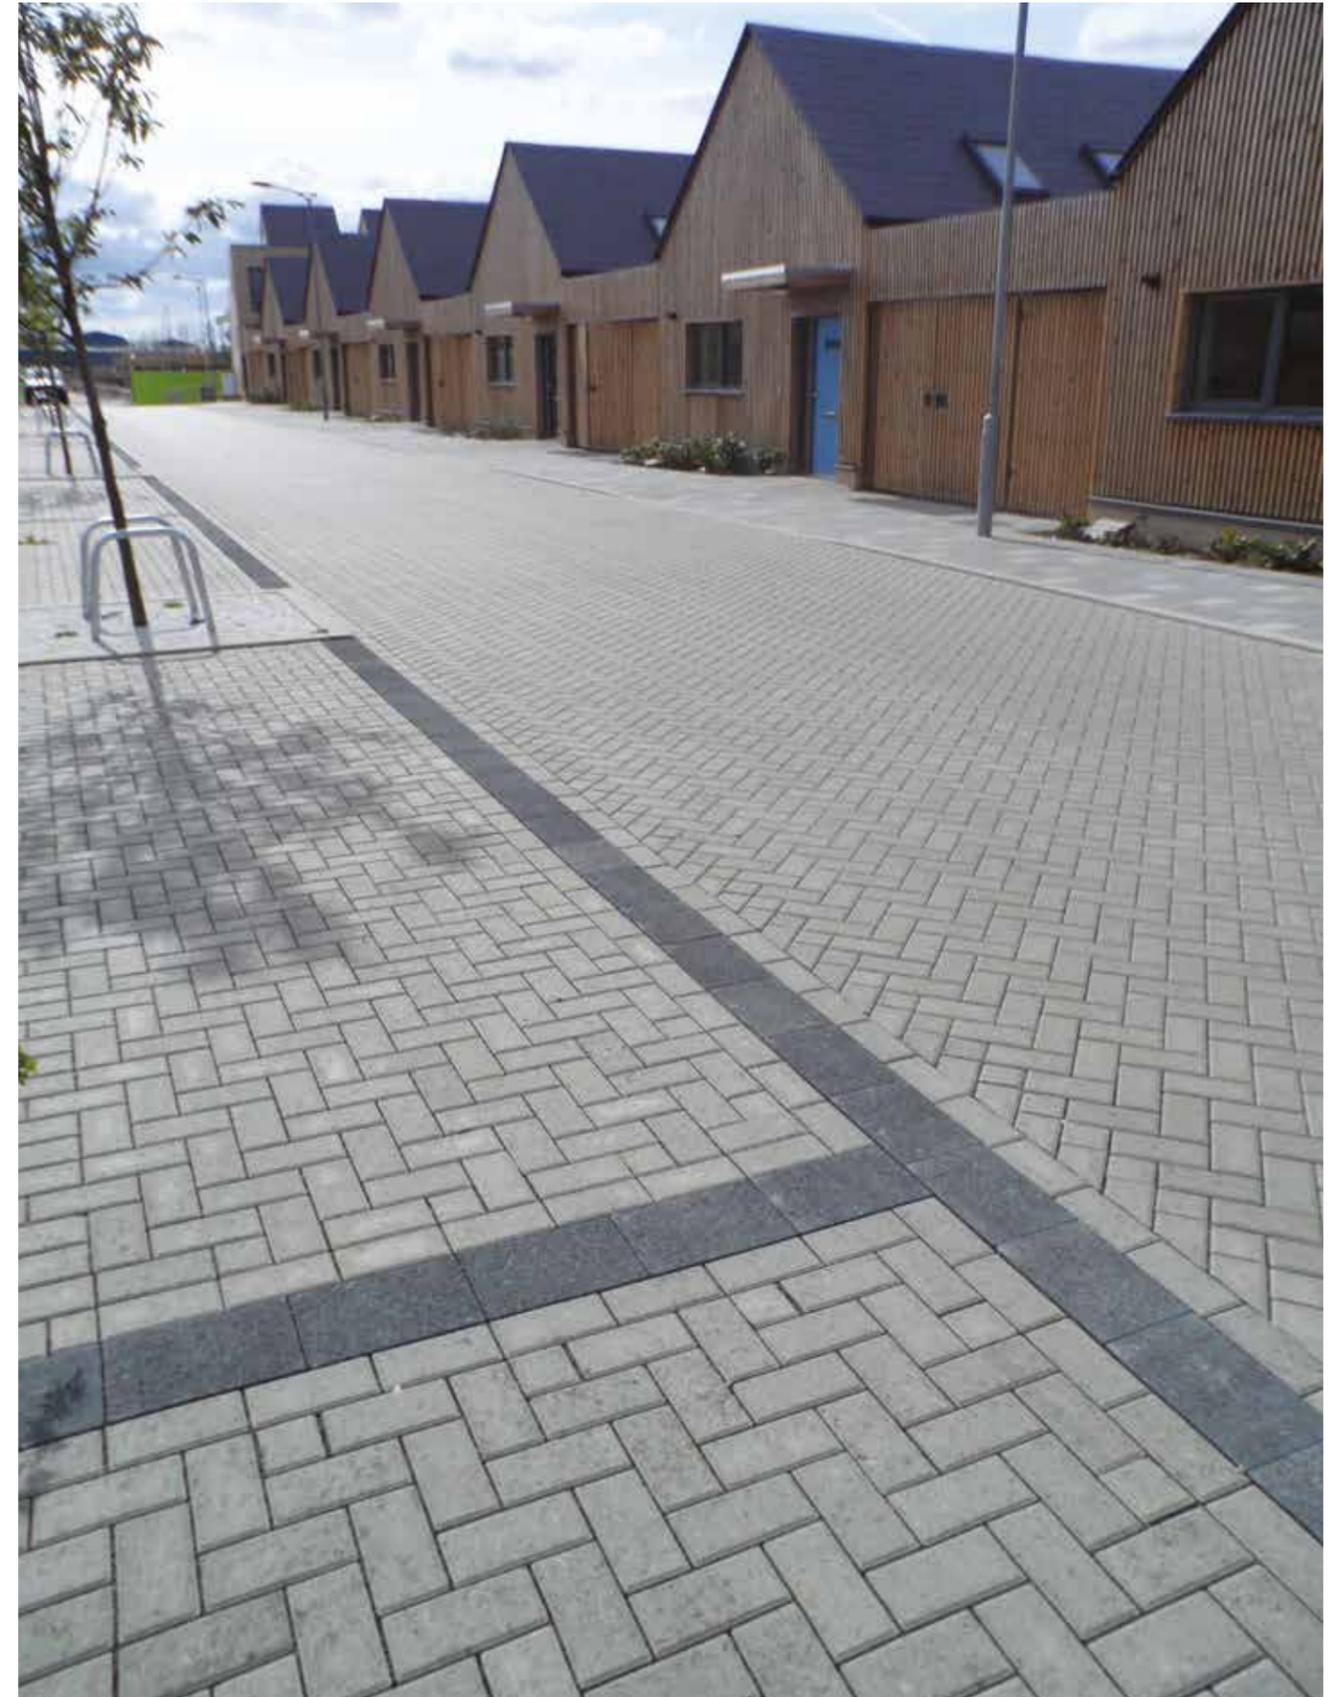

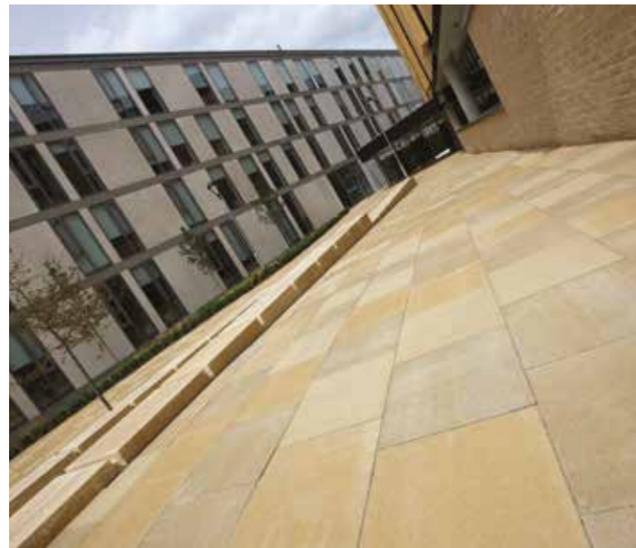

We have an extensive range of natural stone and concrete kerbs. Designed to improve delineation of traffic flow, protect pedestrians, assist drainage and reduce maintenance, they also improve aesthetics, with something for contemporary and heritage style projects.

Surface Water Solutions

Designed to keep roads safe with fast and efficient water removal and aesthetic appeal, our Surface Water Solutions reduce the need for expensive underground pipework.

For more information on Charcon, please call 01335 372222 or email landscaping@aggregate.com

Asphalt

We are a major supplier of asphalt and bituminous products in the UK. Our clients and customers include the majority of the UK's highways contractors, as well as working with clients such as Highways Agency and major developers on projects.

T: 0844 557 8396

E: asphalt@aggregate.com

Concrete

We are one of the leading ready-mixed concrete producers in the UK, supplying a full range of quality concrete products to satisfy the needs of the construction industry. We operate from over 70 sites, and have local plants across the UK. Many of our sites operate our Minimix service, which provides small loads of quality assured concrete.

T: 01283 7141187

E: concrete@aggregate.com

Contracting

Our contracting team provides a range of construction solutions and related products for the highways and civil engineering sectors. Services include highway surfacing mobile material production and composite pavements. We have over 70 years' experience in providing the highest quality highway construction and civil engineering solutions for a wide range of clients.
