“The Courthouse” in London

104 trendvario parking spaces in a very confined space

Luxurious living in the heart of London

Inspired by the style of the Edwardian era, “The Courthouse” makes an imposing mark with its architecture in the heart of London. The prestigious project’s 129 luxury apartments and penthouses are located in the immediate vicinity of the Houses of Parliament, London Bridge and the elegant shopping districts. To ensure perfect mobility with their own cars, the residents have access to an underground car park equipped with modern TrendVario systems.

Space-saving parking close to the Houses of Parliament

Having your own parking space in Europe’s most expensive city centre is a pure luxury. Therefore, it is a real highlight that almost every studio in “The Courthouse” has a parking space. The TrendVario 4000 and 4300 systems were implemented, making convenient and secure parking in a very confined space possible. This has enabled 104 parking spaces to be created in the building’s own underground car park.

LOCATION: London, UK
COMPLETION: 2014
ARCHITECT: HLM Architects Ltd
BUILDING CONTRACTOR: Barrat London
PARKING SOLUTION: TrendVario 4000 and 4300
