TEMPTATION

By  Hydro

THIS RANGE BUILDS ON TECHNAL'S EXPERTISE, TAKING ITS EXTRUDED ALUMINIUM DESIGN TO NEW LEVELS OF HIGH QUALITY AND CLEAN LINES. ALL THE ELEMENTS COME IN A MIX OF FINISHES, TEXTURES AND COLOURS AND CAN BE COMBINED TO GET UNIQUE AND PERSONALISED COLOUR OPTIONS. ALL THIS DESIGNED TO ACHIEVE A UNIQUE VISUAL SENSATION AND A MAGNIFICENT EXPERIENCE TO THE TOUCH.

/ MINIMALISM AND MAXIMUM ERGONOMICS

TEMPTATION has been designed to be extremely ergonomic and adaptable, as well as having elegant aesthetics. As a result, the back of the handles is rounded, which provides an excellent grip and has a pleasant feel. This rounded design, along with the straight-line aesthetics at the front, create a uniform model that offers the perfect balance between functionality and maximum slenderness.

/ TEXTURE AND COLOUR

The handles in this collection are made of extruded aluminium, with a lacquered or anodised surface finish, and come in any of the TECHNAL range of colours.

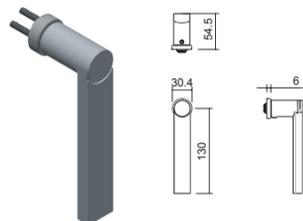

/ A ROSETTE FOR EVERY NEED

TEMPTATION handles are available with standard 27 x 10 mm rosettes and large 32 x 14 mm rosettes for doors, both with a fastening screw system included. There is also the option of fitting the window systems with a reduced rosette of just 30 x 30 mm (available in 2022). Option of rosette with key 33 x 14 mm is provided for windows (available in September 2021).
