

Deluxe Cabin Lift

Part M Compliant Platform Lift (certified to EN81-41)

Designed in Italy this smart, reliable platform lift has proved especially popular with our clients, meeting vertical transport requirements and the most modern architecturally led aesthetic styles and concepts.

This deluxe vertical platform lift can be made to specification using a wide range of different finishes including precious Italian wood, natural stone floor inlays, leather coatings and stainless-steel push buttons. The lift can also be interfaced with a multimedia in-house system to play your favourite tunes throughout the travel.
