

SCRUB UP TROUGH HOSPITAL PATTERN SU H 1 / 2 / 3

PRODUCT CODE

806

APRIL 2011

Model: SUH 2 806FR Low Back

The Economy version (right) is not HTM64 pattern but does meet the requirements of many installations. To provide a comparison, the illustration shows the same size and low back version as the HTM64 version above

Special Features

- ▲ HTM64 PATTERN FULLY RADIUSED MODEL
- ▲ ECONOMY OPTION AVAILABLE
- ▲ CHOICE OF HIGH OR LOW BACK DESIGN
- ▲ THREE STANDARD SIZES SUH1, SUH2, SUH3

Description

The hospital pattern (HTM64) scrub trough has fully radiused internal corners for ease of cleaning and hygiene. The trough is available in three standard sizes to suit 1, 2 or 3 users (HTM codes: SUH1, SUH2, SUH3). The trough is designed for wall mounting and is designed for use with wall mounted (on low back units) or splashback mounted (high back models) taps. Various tap options may be chosen including sensor operation and lever operation

An Economy (non-HTM64) version is available as illustrated in the same sizes and with high or low backs

Sizes

Standard lengths are 800 mm, 1600 mm and 2400 mm

Construction

The scrub trough is manufactured from grade 304 stainless steel

Waste Outlet

All models supplied with a 38 mm (1½ in) BSP unslotted flush grated waste fitting, positioned at either the right or left hand end (as facing)

Options

- ▲ Standard is fully radiused – Economy is optional
- ▲ High or low back
- ▲ Left or right hand wastes
- ▲ Stainless steel trap cover
- ▲ Water controllers, taps and valves

Order Codes and Technical Specification

Please refer to the Technical Specification Sheet

The HTM64 high back SUH2 unit is shown here with 6" elbow operated lever taps

The Economy high back unit is illustrated with spouts for use with sensor or knee operated valves
