

Castings for Vehicles

11 Swinborne Drive
Springwood Industrial Estate
Braintree
Essex
CM7 2YP

FSE has worked alongside car manufacturers, producing parts such as wheel bearing housings, gearbox gear change housings and bellhousings.

Castings for Vehicles

At FSE Foundry we have the ability to cast a number of different vehicle parts in a variation of metals:

Aluminium

Gun metal

Cast iron

Our customers range from:

Design and manufacturers of low output new and kit vehicles

Vehicle restoration companies and individuals

We have produced parts for a number of different vehicles, ranging from:

Cars

Bikes

Trucks

Tractors

Boats

Steam Engines and Carriages

FSE has worked alongside bike and classic car manufacturers and restorers, producing brake lever arms, fuel caps and a number of finishing pieces.

FSE has worked alongside truck/army vehicle restorations, producing parts such as sprung hook fasteners, thermostat housings and other pieces that are no longer manufactured.

FSE has worked alongside old rail carriage restoration groups, producing all necessary bronze handles and locking pieces.

FSE Foundry can provide you with complete service, from pattern design and production, to metallurgy, quality control, castings and finishing, all under one roof
WE AIM to:

Provide a quick response to enquiries with manufacturing expertise
Provide a number of casting processes to meet customer requirements
