

## Power Access Systems Limited

Permanent access systems

### Fully Power Operated Cradle Systems

We offer the full range of **PK** power operated cradle systems. Every machine, from the smallest units operating in restricted passages to machines reaching 20 meters or more, is custom designed for the particular installation. Special features such as an independent materials hoist for glazing replacement can be incorporated.

### Safety Systems and Walkways

Power Access Systems is an approved installer of **Latchways** safety wire systems and also installs fixed safety harness anchors, ladders and walkways.

### Maintenance and Testing

To ensure many years of safe and trouble-free operation we offer a comprehensive programme of maintenance and testing.
