

Special Features

- ▲ RESISTANT TO WEAR AND DAMAGE
- ▲ ONE PIECE HYGIENIC CONSTRUCTION
- ▲ EASY TO CLEAN

Description

The squatting WC pan is highly resistant to wear, hygienic and will withstand impact damage. Designed to be installed level with the floor surface, the squatting WC pan is supplied with a back inlet flushing terminal and a plain vertical spigot outlet.

A choice of white polypropylene P and S traps can be supplied together with manual flushing cisterns. To complete the installation a shattaf bidet spray can also be provided.

Construction

The squatting pan is manufactured in one piece without joints or crevices from 304 grade stainless steel, with a matt finish. A back entry flushing terminal, supplied with the WC squatting pan, provides an efficient washdown. Incorporated into the WC squatting pan is an integral vertical spigot waste outlet.

A white polypropylene P or S trap can be supplied to convert the vertical spigot into a horizontal or vertical outlet.

Options

- ▲ Concealed duct mounted high level plastic cistern (product code 142)
- ▲ White polypropylene horizontal P trap
- ▲ White polypropylene vertical S trap
- ▲ Shattaf bidet spray
