

The VELOPA Cycle Security Rail

A extremely simple and effective way to secure a bicycle, the VELOPA Cycle Security Rail is fabricated from 15mm diameter mild steel bar with two flanges for attaching to a suitable wall. The Cycle Security Rail is particularly suited to domestic or internal environments, yet the galvanising will ensure it retains it's finish for years, no matter where it is used. The Cycle Security Rail is also suitable for securing groundsman/garden tools.

The VELOPA Cycle Security Rail is supplied with the necessary fixing bolts and sheer nuts for installation to a suitable brick or concrete wall.

Options

Order Code	Description	Weight
138 200 201	Cycle Security Rail	2.0kg

Product details

Galvanised 15mm mild steel bar.
830mm overall length.
