PROSOCO Liquid Marble Cleaner Gel

Description and use

PROSOCO Liquid Marble Cleaner Gel is a non acidic, low odour, blue coloured gel for commercial cleaning, restoration and maintenance of polished stonework or glazed masonry. It loosens and dissolves surface dirt, carbon buildup and other atmospheric stains, allowing them to be washed away with a simple water rinse.

Advantages

- An effective, non acidic restoration cleaning compound
- Does not etch glass or metal surfaces
- Gel consistency controls dripping. Material clings to vertical surfaces
- Odourless and non fuming – ideal for interior application

Recommended as follows. Always test.

Substrate	Type		m² per litre
Architectural Concrete Block	Smooth	Yes	N/A
	Split faced	No	
	Burnished	Yes	
	Ribbed	No	
Marble Travertine Limestone	Polished	Yes	N/A
	Unpolished	Yes	2 – 4
Granite	Polished	Yes	N/A
	Unpolished	Yes	2- 4
Sandstone	Unpolished	Yes	2- 3
Slate	Unpolished	Yes	2- 4
Fired Clay	Brick	Yes	2- 4
	Tile	Yes	
	Terracotta	Yes	
	Pavers	Yes	
Concrete	Block	Yes	1.5 - 3
	Brick	Yes	
	Tile	Yes	
	Precast Panels	No	
	Pavers	Yes	
	Cast in place	No	

May have limited effect on unpolished/unglazed surfaces.

Limitations

- May dull or remove waxes or other applied finishes
- Not intended for use on black marble

Technical Data

Form:	Blue coloured gel
Specific Gravity:	1.117
Freeze point:	2.2 ⁰ C
pH:	9.7
Flash point:	N/A

Preparation

Protect surrounding surfaces and beware of wind drift.

To avoid harm to masonry, do not clean when temperatures are below freezing or will be overnight. Best cleaning results are obtained when temperatures are 4⁰C or above. If freezing conditions exist prior to application, allow adequate time for masonry to thaw.

Equipment

Apply with a soft bristled brush. Spray application is not normally suitable. Rinse with a sponge or pressure washing equipment.

Pretesting

Always test each type of surface to ensure suitability and desired results. Apply test area according to the following application procedures. Allow area to dry thoroughly before inspection and approval.

Dilutions

Liquid Marble Cleaner Gel is designed to be used in concentrate for removal of heavy soiling. For light soiling conditions, dilute with up to 3 parts water.

Application Instructions

1. Use a soft bristled nylon brush to apply concentrated cleaner liberally to the marble surface.
2. Allow the cleaner to remain on the surface for 15 to 20 minutes. Do not allow the gel to dry on the surface.
3. Using plastic or wooden tools, remove gel cleaner and solubilised soiling from the surfaces.
4. Rinse the surface thoroughly with fresh water using sponges or low pressure rinsing. Change rinse water frequently. Thorough rinsing is extremely important to ensure all residues are removed from the surface.

Allow Liquid Marble Cleaner Gel to remain on the surface for 5 to 15 minutes taking care not to allow the gel to dry. Sponge rinse the surface thoroughly using fresh, clear water. Rinse water should be changed frequently.

Coverage Rates

Coverage rates will vary according to surface texture and porosity.

Packing

1 x 25 litre plastic container.

Safety Information

Causes eye and skin irritation. Wear suitable PPE – goggles and gloves avoid splash to bare skin or eyes. Always refer to material safety data sheet before use.

Technical Data

Contains ethylene glycol monobutyl ether and isopropanol.

Shelf Life

Liquid Marble Cleaner Gel may be stored for up to 2 years in a tightly sealed, unopened container.
