

Special Features

- ▲ HYGIENIC DESIGN
- ▲ HEAVY DUTY CONSTRUCTION
- ▲ HINGED STAINLESS STEEL GRID
- ▲ HIGH SPLASHBACK
- ▲ FRONT SUPPORT LEGS

Description

The bucket sink is ideal for installing in cleaners rooms, workshops and kitchens. Designed for heavy usage, the bucket sink has a large deep bowl, a stainless steel hinged grid and splashback. Mounted at low level for easy filling and emptying of buckets, the sink is held in position by integral wall brackets and stainless steel front support legs.

Construction

The bucket sink is manufactured in one piece without joints or crevices from grade 304 stainless steel, with all exposed surfaces polished to a satin finish. A hinged stainless steel grid is provided, together with a wall mounted stainless steel splashback.

The bucket sink is produced with integral wall mounting brackets and is supplied with two stainless steel front support legs and an unslotted flush grated waste fitting.

Option

- ▲ Bib Cock Taps (pair)
