

Special Features

- ▲ HYGIENIC VANDAL RESISTANT DESIGN
- ▲ HEAVY GAUGE FOR STRENGTH AND DURABILITY
- ▲ FACTORY ASSEMBLED SHOWER FITTINGS
- ▲ WELDED OR KNOCK-DOWN DESIGN

Description

The shower cubicle is supplied as a one piece welded unit or, where access is limited, in "knock-down" form for site assembly by the installer. The cubicle is available with end closure panels for free standing locations open or closed top and is supplied as standard with a soap holder, heavy duty shower curtain, waste outlet and shower fittings. Cubicles can be bolted together to form ranges and are ideal for installing where constant heavy use is encountered such as leisure centres, sports facilities, campsites, schools, colleges and military barracks.

Construction

The shower cubicle is manufactured from grade 304 stainless steel, with all exposed surfaces polished to a satin finish. Supplied as a one piece welded unit or in "knock-down" form for site assembly, the cubicle incorporates a built-in shower tray with a central outlet, integral mounting feet and a removable front access panel held in position by security type screws. The cubicle top can be left open or provided with a roof. A choice of factory assembled shower fittings with concealed pipework are supplied with the cubicle, together with a soap holder, heavy duty curtain and an unslotted flush grated waste fitting.

Options

- ▲ Open or closed top
- ▲ Stainless steel closure panels for free standing cubicle sides
