## A large choice of brochures...

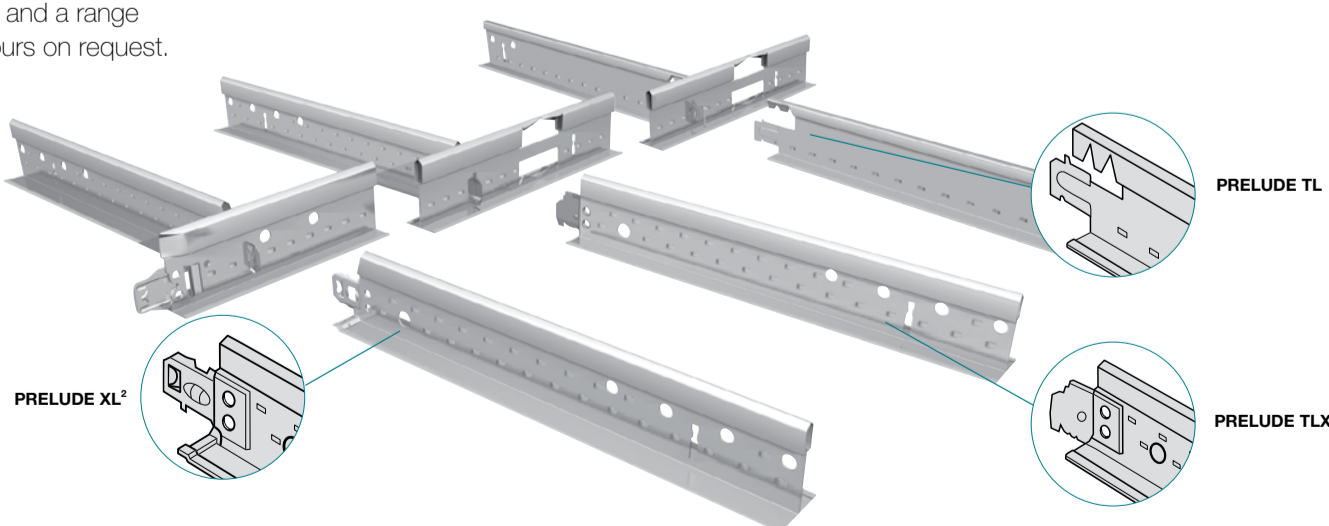

## Armstrong Services

- Environment**  
 Material up to 25% post-consumer recycled content and 100% recyclable, for the best accreditation in today's rating systems like BREEAM, LEED, DGNB.
- Total ceiling solutions**  
 Armstrong's suspension system product range provides a complete range of solutions for specific, design, perimeter and standard applications.
- Colour**  
 Global White to complement Armstrong ceiling tiles and a range of standard colours as well as a choice of 180 colours on request.

## Armstrong Solutions

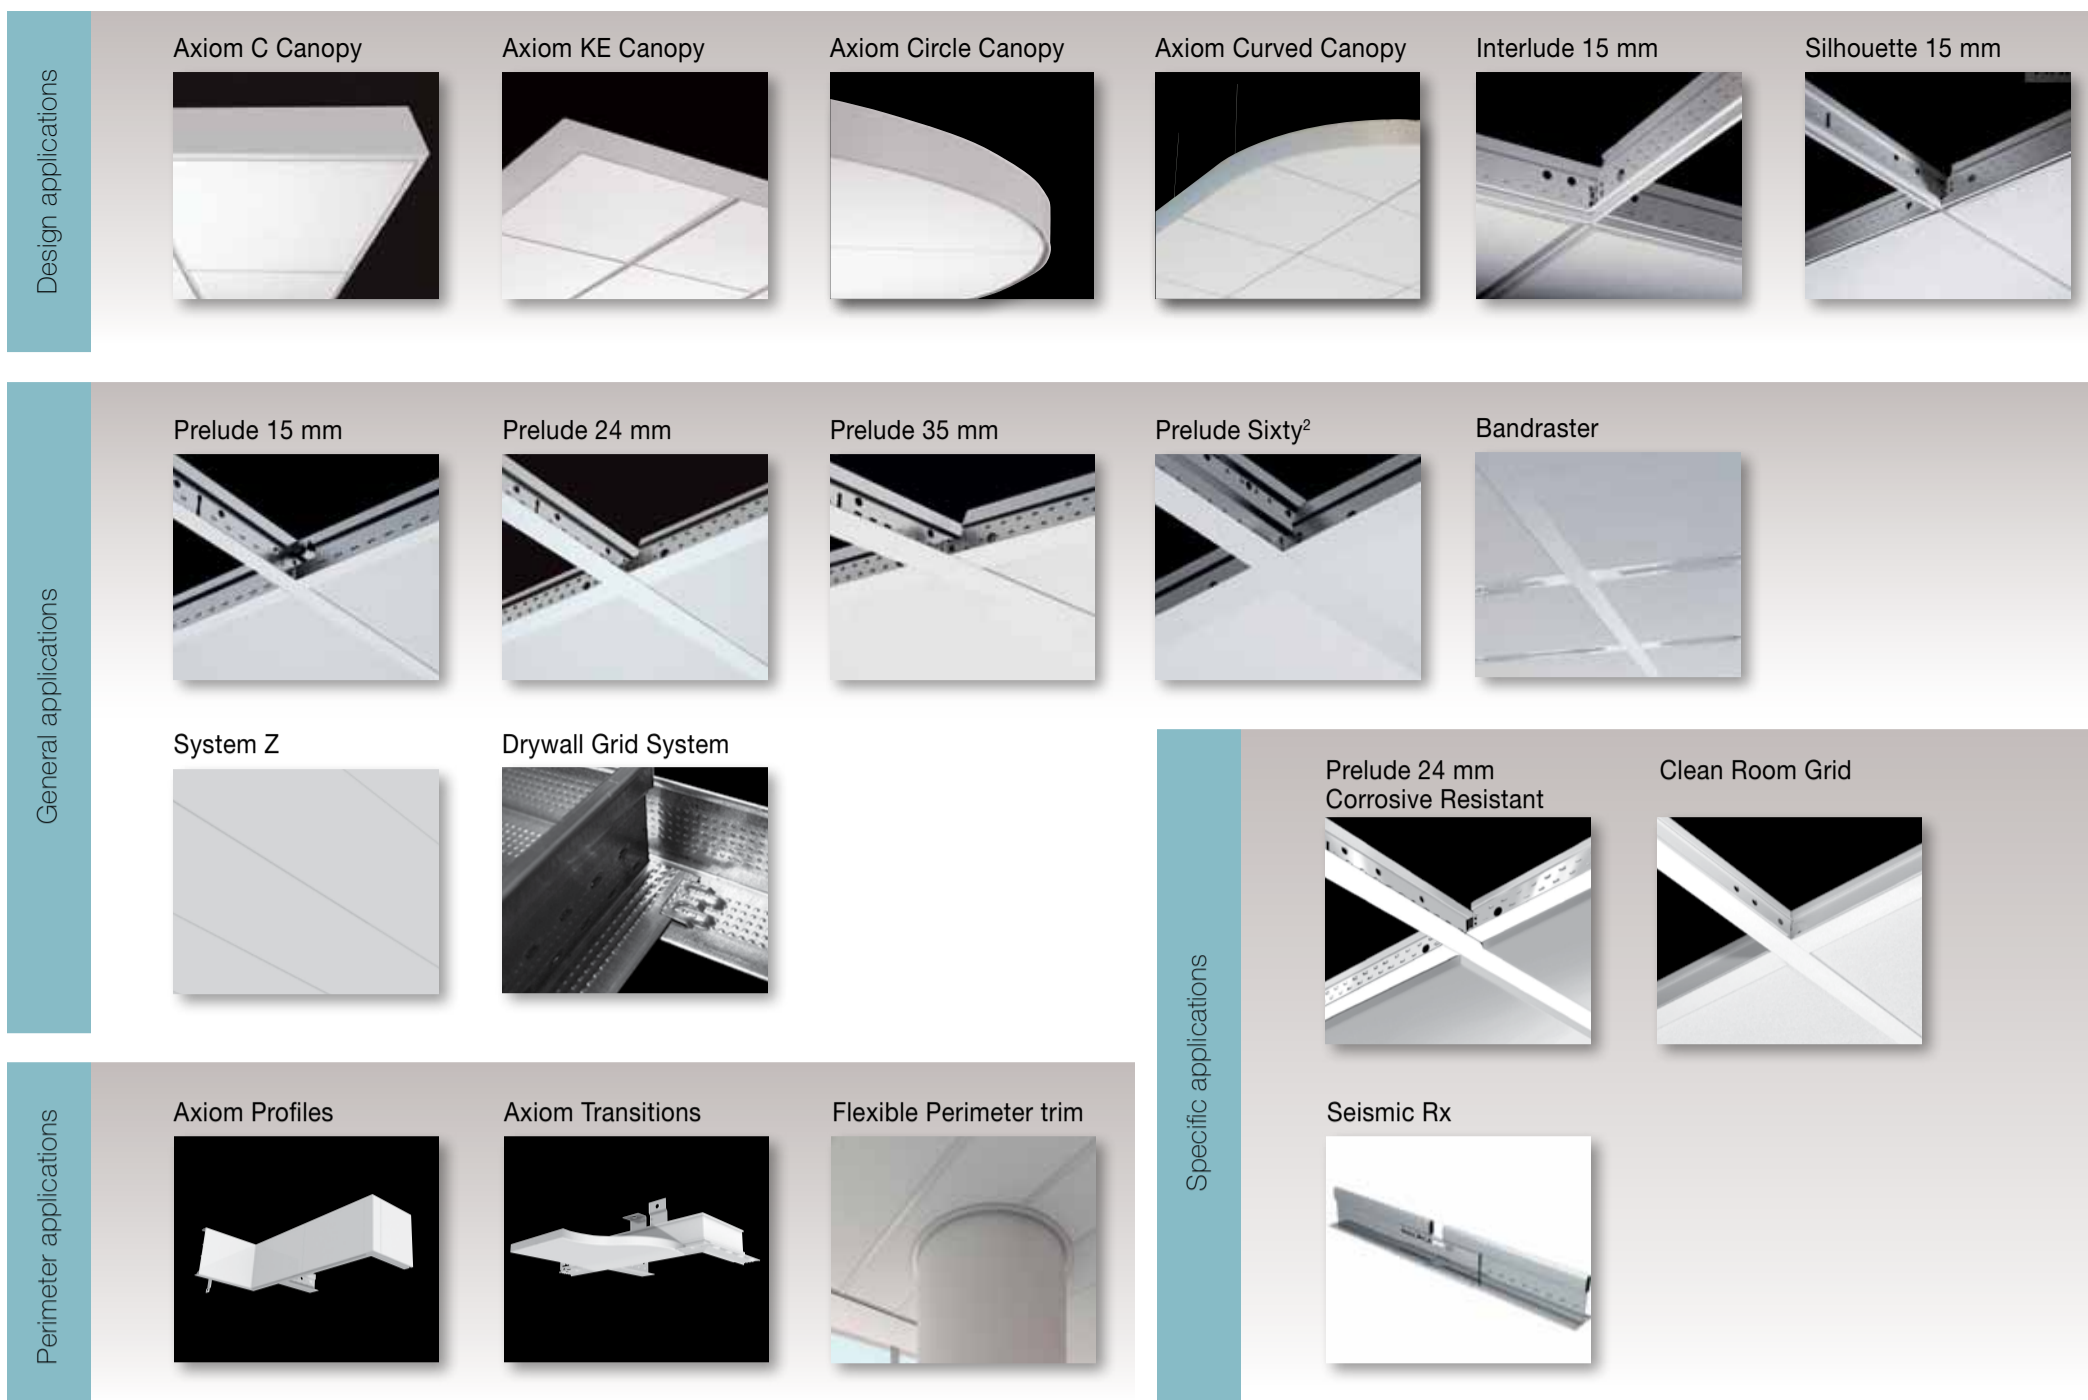

- A full range to meet customers expectations:**
  - **General applications**, a range of standard Prelude 24mm and Prelude 15mm grid systems, Bandraster and Prelude Sixty<sup>2</sup> for longer spans. Drywall Grid Systems are available for plasterboard ceilings.
  - **Designer options** including Silhouette and Interlude grid and the Axiom range.
  - **Specific applications** for clean room and higher humidity environments.
  - A complete range of commonly required **accessories** and **perimeter solutions**.

## Armstrong Innovations

- Prelude Universal Main Runner**  
**Supports the installation of either hook/butt cut or stab/joggled Cross Tees available in Peakform design in 35 mm, 24 mm and 15 mm widths.** The Superlock clip provides a quick and easy assembled Main Runner to Main Runner/ bulb-to-bulb connection. Metric sized Main Runners are **slotted at 100 mm centres for more flexibility. Slots are machined to receive positive** and accurate assembly of either Prelude TL, Prelude TLX (hook installation) or Prelude XL<sup>2</sup> (stab installation) Cross Tees. The stacked-on **Superlock clip allows for Main Runners to be disconnected and reconnected laterally in low-clearance areas** or in the middle of a room.

- Axiom range**
  - **Axiom Transitions** - sections are designed to provide a flush transition between plaster margin and mineral, metal or wood suspended ceilings.
  - **Axiom Profiles** - available in 5 heights with a plasterboard trim section, Axiom Profiles are compatible with 24mm and 15mm grid systems including designer grid.
  - **Axiom Classic, Knife Edge, Circle & Curved Canopy** - designed as a kit, ready to assemble, to create "ceiling clouds" in conjunction with full size tiles. Axiom Canopies will define and individualise every space.

Application	Products	Family Product Name	Profiles	Main Runners & Cross Tees	Connection	Shape	Tile Edge Compatibility
Design	Axiom Canopy	Axiom C Canopy		15 mm or 24 mm Grid System as a kit	Stab system	Tiles	Board, Tegular, Vector & MicroLook
		Axiom KE Canopy		15 mm or 24 mm Grid System as a kit	Stab system	Tiles	Board, Tegular, Vector & MicroLook
		Axiom Circle Canopy		15 mm or 24 mm Grid System as a kit	Stab system	Tiles	Tegular 8 mm & MicroLook 8 mm
		Axiom Curved Canopy		15 mm or 24 mm Grid System as a kit	Stab system	Tiles	Tegular 8 mm & MicroLook 8 mm
	Exposed Design 15 mm Grid System	Silhouette 15 XL <sup>2</sup>		Main Runner Silhouette 15 Cross Tees Peakform XL <sup>2</sup> Silhouette 15	By-pass connection Stab system	Tiles	MicroLook BE <sup>(1)</sup> MicroLook Optima, Nevada & Madera Metal MicroLook 15/8 (Global White for 6mm Silhouette and RAL 9010 for 3mm Silhouette)
