Model 397 features our beautifully contoured wave design shown here formed into a brown granite finish

Our ReZina washtroughs are available in sizes up to 3.6 metres for one to six users and are available in white, standard colours and a wide range of special colours to order

Model 395 (illustrated here with optional sensor operated spouts) has a discreet inclined trough featuring a slot drain and hidden waste outlet, ideal for a tidier, cleaner and up-to-date appearance

Sloping lid model 395 illustrated in slate grey finish and fitted with optional lever operated taps

ReZina wash troughs can be supplied with a wide range of manual or sensor operated taps and spouts

Contemporary model 399 shown in black finish with optional sensor operated spouts features a waste gully with a removable lid which has been removed from the image at left to illustrate this design feature

Model 399 with the removable waste gully lid in position, shown in white with optional lever operated taps

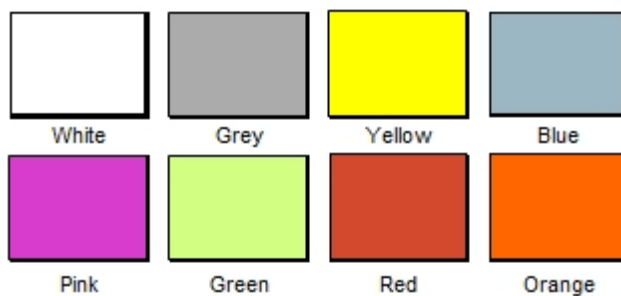

ReZina wash troughs are available as "sit on" units for fitting to vanity units but can be wall mounted using wall brackets supplied with units
All models can be supplied in a "dual use height", split level design format, to facilitate use by wheelchair users

Model 382 is a wall hung wash trough featuring removable front panels which may be supplied in colours either matching or contrasting with the trough, illustrated in white with optional sensor operated taps

Also available in a splashback design for use with wall mounted spouts

Standard colour range for all ReZina washtroughs, or alternatively a wide range of special colours can also be supplied

Model 384 is a "sit on" design for use with vanity units, illustrated in white with optional soft touch push button taps

A splashback design is available for use with wall mounted spouts

A nursery version of this model is available with a shorter wall projection making it easier for young children to reach the taps

For full details of all these and other wash troughs in the range please visit our web site:
