DRAINAGE FOR HOTELS

Hotels are one of the most drainage intensive environments. ACO Building Drainage has a comprehensive range of internal and external drainage systems to cater for the diverse drainage requirements of hotels which can include commercial kitchens, hotel bathrooms, luxury spas, car parks and landscaped gardens. Our range includes high performance grease traps for use in hotel kitchens, engineered radial channels for external landscaping, and aesthetically designed shower channel for use in bathroom areas.

Our products offer market-leading performance with regard to corrosion resistance, hygiene and durability, and our in-house design team can provide expert technical support at every stage of your project.

APPLICATIONS

We provide drainage solutions for a wide range of hotel-specific applications including:

- ▶ commercial kitchens
- ▶ shower areas and wet rooms
- ▶ luxury spas
- ▶ swimming pools
- ▶ car parks
- ▶ gardens
- ▶ staff accommodation

EXPERT COLLABORATION

ACO Building Drainage works closely with leading industry suppliers and institutions to raise drainage performance standards. It also connects with, listens to and understands the people that matter be they chefs, hygiene officers, engineers, kitchen planners, cleaning providers, contractors, researchers or business owners.

Our collaboration with experts helps us to understand the risks of sub-optimal drainage, raise standards of product performance and enable specifications that empower the designer and end user to achieve the best possible outcome.

WHAT ELSE DO WE DO?

In addition to providing high performance drainage products, we also offer a comprehensive range of services to support you throughout the life of your project and, via our in-house technical design team, can develop engineered solutions which are tailored to meet specific requirements.
