## Cladex Revive PL

Cleans and revives cladding

### Description and use

Cladex Revive PL is a waterborne cleaner, maintainer and surface reviver – all in one product. Suitable for most types of contemporary materials such as stainless steel, UPVC such as window frames, and most other plastic type materials and coated surfaces. It is also useful to remove ingrained graffiti ghosting from painted surfaces. Cladex Revive PL will provide a dirt repellent satin finish, cleaning and reviving dull and weathered surfaces.

### Advantages

- Safe water based solution
- Quick drying
- Cleans and protects in one application
- Suitable for both internal and external use
- Multiple uses

### Pretesting

Always test each type of surface to ensure suitability and desired results. Apply test area according to the following application procedures.

### Application Conditions

Minimum air temperature 5°C  
Maximum relative humidity 90%  
Minimum surface temperature 5°C  
Maximum surface temperature 40°C

### Application Instructions

1. Shake the product prior to use.
2. Apply Cladex Revive PL with a cloth or lint free paper.
3. Polish with a clean cloth.
4. A second application might in some instances be required.

N.B. Heavily soiled surfaces should be cleaned with Cladex LD or Cladex HD, prior to applying Cladex Revive PL.

### TECHNICAL DATA

Appearance: Opaque waterborne solution

pH Value: 9.1

Boiling Point: N/A

### Coverage Rates

Approximately 15m<sup>2</sup> per litre, depending upon the level of soiling.
