

The VELOPA Ashton Cycle Shelter

The Ashton Cycle Shelter has a simple, universal design similar to our highly popular Cambourne Cycle Shelter. Designed to hold either two rows of bicycles, it is an ideal BREEAM compliant solution for all sites where high density cycle parking is required.

Manufactured from galvanised mild steel with a UV stabilised PETG roof, the Ashton Cycle Shelter can be colour coated to any BS or RAL colour to suit the wider aesthetics of a site (codes must be specified at time of order). The Ashton is available ragged or flanged and can be extended as necessary with the addition of one or more extension bays.

Options

Order Code	Description	Weight
138 204 241	3m Main Bay	361.0kg
138 204 244	4m Main Bay	427.0kg
138 204 246	5m Main Bay	493.0kg
138 204 242	3m Extension Bay	268.0kg
138 204 245	4m Extension Bay	334.0kg
138 204 247	5m Extension Bay	399.0kg

Accessories & installation parts

138 101 010	Pack of 16 16mm Expanding anchor bolts (for fixing 3-4m)
138 101 012	Pack of 24 16mm Expanding anchor bolts (for fixing 6-8m)
138 101 016	Pack of 32 16mm Expanding anchor bolts (for fixing 9-10m)

Product details

2964mm (Height).
4117mm (Depth).

Installation & use

Each shelter leg requires bolting down to a suitable concrete surface (not less than 1,600mm x 500mm x 400mm) by means of eight 16mm anchor bolts. The area surrounding the installation must be flat and level with no nearby surface irregularities or gradient changes.

On-site assembly requires construction skill.

This product is guaranteed for 12 months (*if installed and used correctly*).
