

The AUTOPA open spaces Hampton Teenage Shelter

The AUTOPA open spaces Hampton Teenage Shelter is designed for on-site assembly. A free standing shelter, it is manufactured from mild steel and galvanised to ensure its longevity.

The Hampton Teenage Shelter is an ideal way to make open and common areas welcoming and hospitable to all ages. This highly durable and practical shelter from AUTOPA open spaces offers young people a place to gather and meet with their friends in a safe and sheltered area, making it ideal for parks and schools.

The shelter is supplied ragged as standard, a flanged version is also available. It can be colour coated any BS/RAL colour to suit existing colour schemes (BS/RAL numbers must be specified at time of order).

Product details

2,314mm (Overall Height)
2,621mm (Depth)
2,381mm (Width, Top, per bay)

Installation & use

Flanged shelters require bolting to a concrete surface by means of 12mm bolts (6 required for each flange).

Ragged shelters are supplied with welded fixing spikes to ensure firm ground anchorage.
Ragged shelters require a hole of at least 500mm³ around each leg for casting into concrete.

On-Site assembly requires construction skill.

This product is guaranteed for 12 months (if installed and used correctly).
