For Immediate Release

New Albany products – Summer 2017

Albany offer a wide range of top quality paints and preparation solutions from primers and varnishes, to a variety of interior and exterior paints for almost any substrate. Joining the Albany family are a number of new eagerly awaited finishes!

Albany Oil Based Satin can be applied to new or previously painted wood and metal, including radiators. The formulation creates a traditional, low sheen finish with durable and washable properties. One litre of Albany Oil Based Satin will cover up to 16 sq metres, be touch dry within 4-6 hours and is recoatable after 16 hours. Available in 1lt White and 2.5lt White.

Albany Super Gloss and Super Satin are water based products which can be used on interior and exterior surfaces. Created using modern formulations, these new products are self undercoating, offer excellent opacity and dry quickly with little odour.

Albany Super Gloss and Super Satin will provide a longer lasting whiteness when compared to traditional oil based products. One litre of these new products will cover up to 15 sq metres, be touch dry within 2 hours and are recoatable after 4-6 hours. Super Gloss is available in 1lt White and Black and 2.5lt White. Super Satin is available in 1lt White and 2.5lt White.

Albany Super Primer Undercoat is a water based undercoat ideal to be used with the Albany Super Finishes range (Super Gloss/Super Satin) on interior and exterior surfaces. Offering brilliant flow and opacity, Albany Super Primer Undercoat will dry quickly with little odour. One litre will cover up to 15 sq metres, be touch dry within 1-2 hours and recoatable after 4 hours. Super Primer undercoat is available in 1lt White and Charcoal Grey and 2.5lt White.

In line with customer desires, two of Albany's most popular products Albany Vinyl Matt and Albany Smooth Masonry, are now available in a convenient 7.5lt size.

Albany Vinyl Matt is a decorative, wipeable coating providing a flat finish for use on walls and ceilings. Wipeable products are suitable for light traffic areas where occasional cleaning is required.

Albany Smooth Masonry paint is a water based matt masonry coating offering a durable and flexible smooth finish whilst giving weather resistance and protection against organic growth.

Vinyl Matt and Smooth Masonry are now available in 7.5lt Brilliant White and Magnolia.

Albany has become a favourite among many professional decorators and builders due to the vast range, quality and value they offer. All products within the Albany range are specially manufactured to produce the high quality finish Albany has become known for.

Albany is available exclusively through the Brewers network including their 156 decorator centres, designerpaint.com and Brewers home.
