

ACP3 (galvanised)

ACP4 (galvanised)

ACP5 (galvanised)

ACP6 (stainless)

The AUTOPA Column Protector

Functional and robust in design, AUTOPA's range of column protectors are designed to protect corners, columns, and other vulnerable pillars from vehicle damage in a busy industrial environment. Our Column Protectors are manufactured from mild steel and galvanised to ensure their longevity. Suitable for both internal and external use.

Column Protectors are available in galvanised, galvanised and coated, and stainless steel finishes (RAL/BS numbers must be specified at time of order). Optional reflective tape can be added to maximise visibility.

Supplied ragged as standard, flanged versions are also available.

Product Range

Order Code	Description	Weight
138 177 725	Galvanised ACP3 Column Protector (Flanged)	13.0kg
138 177 735	Galvanised ACP4 Column Protector (Flanged)	14.0kg

460mm inside width	380mm inside width	380mm inside width	224mm inside width
250mm inside clearance to back	350mm inside clearance to back	350mm inside clearance to back	115mm inside clearance to back
80mm x 80mm square upright	60mm upright diameter	64mm upright diameter	48mm upright diameter
64mm horizontal bar diameter	48mm horizontal bar diameter	48mm horizontal bar diameter	48mm horizontal bar diameter
Single height	Double height	Single height	Single height
Two legs	Two legs	Two legs	Two legs

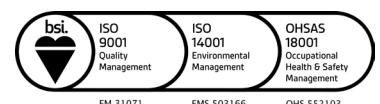

Installation & use

Flanged Column Protectors require bolting down to a suitable concrete surface (no less than 300mm³ per leg) using M12 bolts. Ragged Column Protectors require a hole of at least 250mm deep per leg for casting into concrete. Ragged versions are supplied with welded fixing spikes to ensure firm ground anchorage. This product is guaranteed for 12 months (*if installed and used correctly*).
