

PlaySafe Railings

Generated on 02.10.2017

Detailed description

PlaySafe railings meet the requirements of BS EN 1176 playground equipment, with gaps not exceeding 89 mm and free from any neck entrapments, and are available in a range of over 180 colours.

Posts:

Intermediate, corner and end posts are available in a wide range of sizes and materials including RHS and RSJ, with the provision to be stepped or cranked to suit site conditions, secured in concrete (supplied complete with two optional support legs per standard panel for concrete-in fixing) or base-plated for surface mounting. All posts come with welded steel caps. A range of post head details are available for all railings as an optional extra.

Height:

Manufactured from solid bar in all heights up to 2.4 m.

Horizontals:

Available in flat or channel section.

Panels:

Available as standard to 2.72 m wide panels welded in accordance with BS EN 1722-9. Panels can also be made to suit specific requirements – straight or curved.

Gates:

Standard gates are available or tailor-made to suit project requirements. All gates are supplied with adjustable hinges, pad-lockable drop-bolts (multi-holed to suit site conditions) and robust pad-lockable slide latches.

Applications:

- Play grounds.
- Schools.
- Public areas.

Options

Size:

Consult literature for fence height, post sizes, diameter of vertical rounds, and size of horizontals and spacing of verticals.
