

## Portico

Generated on 02.10.2017

### Detailed description

Stone porticos create an impressive entrance to a property. Adding a portico makes a great statement, adding kerb appeal at the entrance of a property with the benefit of providing shelter from the weather.

#### Styles:

- Square 'U' shaped.
- Square 'L' shaped.
- Semi-circular.
- Apex.

### Product guidance - As Standard

#### Quality:

Porticos are manufactured by experienced craftsmen and in accordance with BS 1217. All porticos produced are thoroughly checked for quality, colour and consistent finish to ensure they meet exacting standards.

### Options

#### Size:

A wide range of sizes are available, of both squared and rounded styles - consult manufacturer and insert requirements.

#### Alternative designs:

Standard porticos elements can be used to create other architectural features such as:

- Bandstands (two semi-circular porticos back to back).
- Colonnades (a long sequence of columns joined by a superstructure above them).
- Pilasters (half a column fixed to a wall).
