SAFETY SECURITY PROTECTION

# Security Glazing – 11.5mm Blade

# Security Glazing - 11.5mm Blade

## Introduction

Safetell Security Glazing - 11.5mm Blade is a secure area glazing system designed to protect staff and counter areas against lower level physical attack and vaulting of the counterwork by assailants, in operations that require the transaction of goods or objects through the glazing line.

Sizes and system are tailored to suit client premises and corporate requirement.

Safetell Security Glazing - 11.5mm Blade is able to be fitted to existing or new counterwork. New counterwork can be supplied by Safetell as part of a complete solution.

For higher level anti-physical attack solutions see Safetell Security Glazing - Full Pane, Security Glazing - 21mm Blade, Bullet Resistant Glazing solutions, or call Safetell.

## Construction

Incorporates 11.5mm anti-physical attack glass and steel. Vertical glazing spacing provides for transaction gaps, clear communication, and air flow. The system can be fitted with glazing edge protectors if metal objects are to be passed through the secure line.

## Installation

Safetell offers design, project management, nationwide installation, and complete secure-line solutions, see below for more details.

## Options

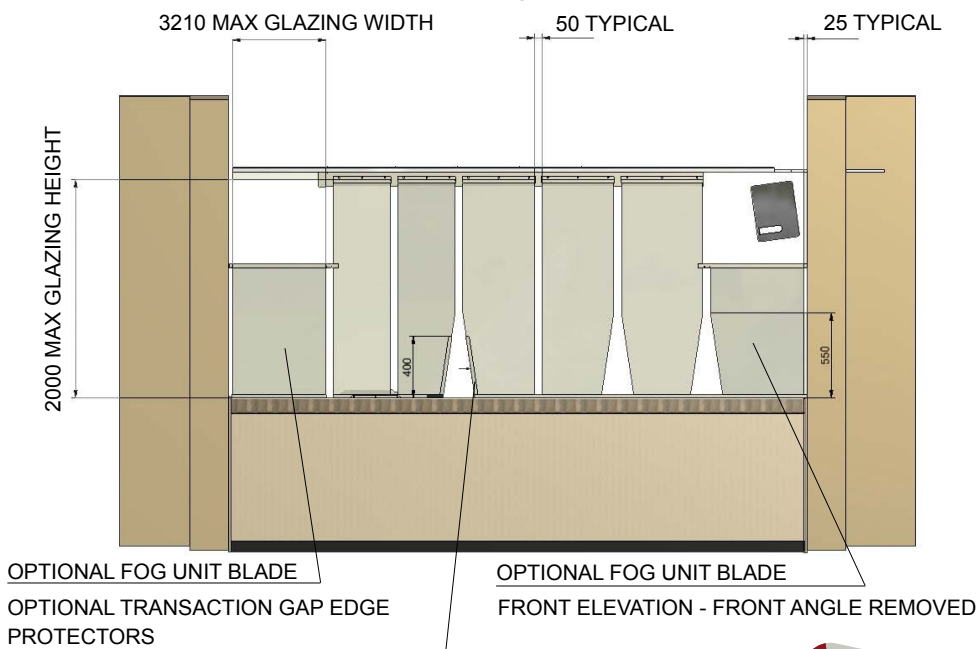

- Alternative material finishes: client defined colour steel
- Glazed position dividers
- Counterwork (and counterwork design)
- Security doors
- Access control system (or access control system integration)
- CCTV
- Bulk Transfer Units, for the passing of large objects through the secure line
- Cashier Pedestals / Cash Drawers / Cash Holding Devices

## FEATURES

- Protection from lower level physical attack and counter vaulting robbery
- Cost effective
- Allows for the transaction of goods or objects while providing staff protection
- Tailored to suit premises and corporate look
- No vertical posts necessary, reducing visual obstructions for staff and public alike
- No electronic speech transfer required
- Nationwide installation
- Complete secure-line solutions
- Centralised account management for standardised implementation

## APPLICATIONS

- Petrol Forecourts, Convenience Stores
- Hospitals, Healthcare centres, Local Authority service desks,
- Building Societies, Banks
- Applications with lone staff member service
