

Automatic Entrance Systems

STANLEY®

# Double Diamond™

## INDUSTRIAL DOOR

- Largest industrial automatic door with pedestrian door safety
- Only automatic door with forklift sensing
- Reduces customer energy loss by as much as 10% by:
  - Utilising object size recognition to open doors wider for fork lift traffic
  - Acrylite panels provide superior R-value compared to glass
  - 50% faster opening times - compared to roll up doors
    - 4.5 seconds for full open - forklifts
    - 2.5 seconds for reduced open - pedestrians
- Available to suit openings from 3050mm to 6100mm wide and 2450mm to 3650mm high

- Trackless design minimises maintenance and eliminates cleaning of debris from ordinary floor tracks Durable product ideal for home centre daily rigors
  - All welded door panels for rigidity and long life
  - Forklift crash tested - to ensure panels remain intact
  - Crash bars and kick plates - absorb shock in the event of cart collisions

All door packages are custom manufactured to fit your job requirements - please contact Axis Automatic Entrance Systems for further information.
