

CellGuard® Custodial Door Range

CellGuard® custodial doors are designed to satisfy the stringent criteria set out within the Home Office Police Building Design Guidance and has been developed, tested and approved in conjunction with the Home Office for use in Police Custody suites.

The Fendor CellGuard® custody door range encompasses: cell doors, perimeter doors and fire resistant doors. All of which are engineered and tested to withstand sustained levels of attack.

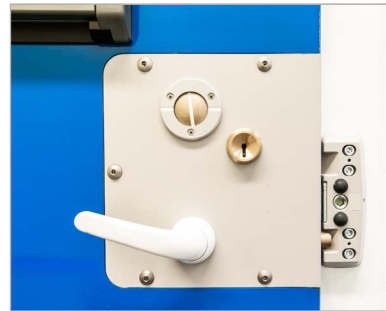

CellGuard® in situ

CellGuard® custody door

Quick View

Product	CellGuard® custodial door range is of steel construction and uses approved hardware and vision panels
Application	Approved for use in police stations, immigration centres, prisons, courts and comparable applications
