

## The Most Comprehensive Range of Oak Notice Boards Available

Offering a comprehensive and systemised approach to the specification of oak notice boards, the extensive Greenbarnes range combines tried and tested detailing with almost infinite scope to tailor boards to match client's individual needs. Whatever your requirement, you are certain to find that Greenbarnes can provide the solution, frequently from our "Top 10 Oak Notice Boards" (see separate product sheet), but for those seeking a greater degree of control over the specification of their board, or for those requiring something less mainstream the "Full Range" detailed in this brochure offers possibilities limited only by your own imagination.

The key element of all our boards is the modular construction method employed. Developed over a period of 20 years, this ensures that, whatever the shape, size or finish of the board(s) that you specify, you can rest assured that the important details have been taken care of.

Our "Full Range" encompasses all the permutations that can be achieved from the following elements:

- 1,2 or 3-bay boards
- Standard bay sizes to accommodate 3, 4, 6, 8 or 10 sheets of A4
- Boards may be glazed, unglazed or a combination of both
- Choice of glazing material
- Wall, post or railing-mounted
- Available with a choice of 4 header styles, (straight, double height straight, gable, or radiused) or with no header
- Signwritten or engraved lettering
- 6 different display options including standard pinboard, self-healing rubber pinboard, magnetic, ribbed letter board and various graphic panel options
- A huge variety of finishes
- A full range of accessories

## Why Choose Greenbarnes?

### Attention to detail

On the face of it, a timber notice board is a fairly simple product. However, as always, ultimate success or failure depends upon the detailing. It was the realisation many years ago just how many badly designed wooden notice boards were to be seen rotting at the roadside that lead us to develop the first boards to be properly considered and designed as a product rather than something that had been put together as a one-off by the local carpenter. All our oak boards are hand-made by highly skilled cabinet-makers to designs which are the result of over 20 years experience and are assembled and finished to order.

### Modular construction

Modular construction employs heavier timber sections than those of most of our competitors. Secret dovetail-jointed corners result in a much stiffer and more robust product. It also means that on multi-bay, multi-user boards each bay is truly independent, rather than one space behind two or more doors. We use plantation grown European oak as this is generally straighter than English oak, resulting in less wastage. All glazed boards are ventilated to minimise condensation. All our boards are supplied with a microporous stain finish, rather than the easier to apply but less durable "oil" finishes used by some of our competitors which require more frequent maintenance. Standard display surfaces are Sundeala (a purpose designed pinboard material) for all glazed bays and a totally weather-proof self-healing rubber sheet for unglazed bays, ensuring that placing and removing notices is a pleasure rather than a chore.

### Unlimited possibilities

We offer the widest variety of standard sizes of any manufacturer (see back page), together with a fully comprehensive range of options including 4 different styles of header, a choice of 6 display types, LED lighting, flexible access arrangements by key, latch or combination of the two within the same board, plus a comprehensive range of accessories including posts, decorative post caps and dedication plates. We are the only major manufacturer to offer both toughened glass and polycarbonate glazing. Both have advantages in certain circumstances - we let you choose the most appropriate and you only pay for what you need. Polycarbonate is ideal where impact damage is likely but is more expensive than glass and more susceptible to being scratched. Toughened safety glass is ideal for most locations, is optically superior, and much more difficult to scratch.

### Ongoing support

After sales service - we're here to help! Lost a key or suffered an accident? A Greenbarnes board offers the peace of mind that comes with the knowledge that spares will be available if and when you need them.

## Standard Specifications

Available sizes	Single-bay 3 x A4 - 3-bay 9 x A4	✓
Configuration	Single-sided landscape or portrait, 1,2 and 3-bay	✓
Frame and doors	Solid oak, each bay individually framed	✓
Header	Standard board supplied without header - see options	✓
Finishes	Light oak or dark oak microporous wood stain	✓
Glazing	4mm toughened glass	✓
Back panels	Tricoya®	✓
Display surface	Glazed bays - Sundeala pinboard	✓
	Unglazed bays - self-healing rubber	✓
Mounting	Wall, post or railing-mounted	✓
Hinges	Nickel plated brass or stainless steel	✓
Locking	Simple, robust lock with "easy-grip" key	✓
Weather resistance	Weatherseal	✓
	Integral ventilation	✓
Warranty	5 years	✓

## Options

Glazing	4mm polycarbonate	✓
	Straight (with scalloped ends) 95mm high	✓
Headers	Straight (with scalloped ends) 190mm high	✓
	Gable 190mm high	✓
	Radiused 190mm high	✓
Lettering for headers	Computer-cut vinyl letters	✓
	Plain engraved lettering	✓
	Engraved lettering with coloured fill	✓
	Self-healing rubber pinboard	✓
	Magnetic	✓
	Ribbed letterboard	✓
Display	Signwritten panel (computer-cut vinyl lettering on aluminium panel)	✓
	Digital print (map, information or graphic) on aluminium panel	✓
	Grp encapsulated digital print (map, information or graphic)	✓
	Opaque coloured wood stain (choice of 10 stock colours)	✓
Finish	Opaque coloured wood stain (choice of approx 1200 special colours)	✓

## Accessories

	Post kits - 1,2 or 3 posts	✓
Mounting	End-mounting post kit (2 posts plus braces)	✓
	Decorative post caps - acorn or ball pattern	✓
	Railing kit	✓
Letter sets	Moulded plastic letters for use with ribbed letterboard	✓
Magnets	Magnetic pins and discs for use with magnetic back panels	✓
	"T" handle (converts standard lock into latch for key-free access)	✓
Access	Triangular lock insert (alternative to standard square insert)	✓
	Additional key	✓
Lighting	LED lighting kit (Glazed bays only)	✓
Commemoration	Brass dedication plate 75 x 40mm with up to 50 engraved characters	✓

## 5 Year Guarantee

We guarantee to the original purchaser, that our oak notice boards are free from defects in material and workmanship. "Defect" is defined as any imperfections which impair the use of the board. The guarantee is expressly limited to the replacement of parts and components for 5 years from the date of dispatch and does not cover the following:

- 1) Defects caused by improper assembly or disassembly
- 2) Defects occurring after purchase due to product modification, intentional damage, accident, misuse, abuse or negligence
- 3) Cosmetic damage
- 4) Labour and assembly costs
