

Innovation | Manufacturer | Design | Solution

Delta Membrane Systems Limited is the leading Type C Cavity Drain Membrane Manufacturer in the United Kingdom

We give honest advice and provide complete solutions in Waterproofing Design – our hands on approach and knowledge is what sets us apart.

Structural Waterproofing Solutions for

- Residential Buildings/Commercial Buildings
- Retail Units and Warehouses
- Leisure Facilities
- Archives/Libraries/Vaults
- Hospitals/Schools
- Underground Stations/Tunnels
- Underground Car Parking areas and Car Parks
- Listed Buildings/Heritage Buildings
- Insulated formwork Construction (ICF)

Delta Academy

We are committed to offering training and education to develop skills and knowledge within the Waterproofing Sector and continually promote standards within the industry:

- Expert insight into waterproofing design solutions
- Education on technologies available
- Planning and solution design
- Schematic drawings and system overview

Design Support

Delta Membrane Systems Limited provides a full range of waterproofing solutions suitable for all new, retrofit and refurbishment construction. Our trusted Technical Team of CSSW qualified Waterproofing Design Specialists will offer assistance from concept to completion. As a Waterproofing Design Specialist, we provide an innovative design service which complies with BS8102:2009. Our hands on approach and knowledge is what sets us apart.

Resistant and Resilient Flood Solutions

We aim to offer a knowledgeable and practical approach to understanding the issues and devising flood resilient construction methods and materials that reduce the impact from a flood event, ensuring a structure's structural integrity is maintained and offering faster reoccupation. We have been actively involved in the BRE Flood Resilience Home and the Cumbria Flood Resilience Showcase.

Specification Support

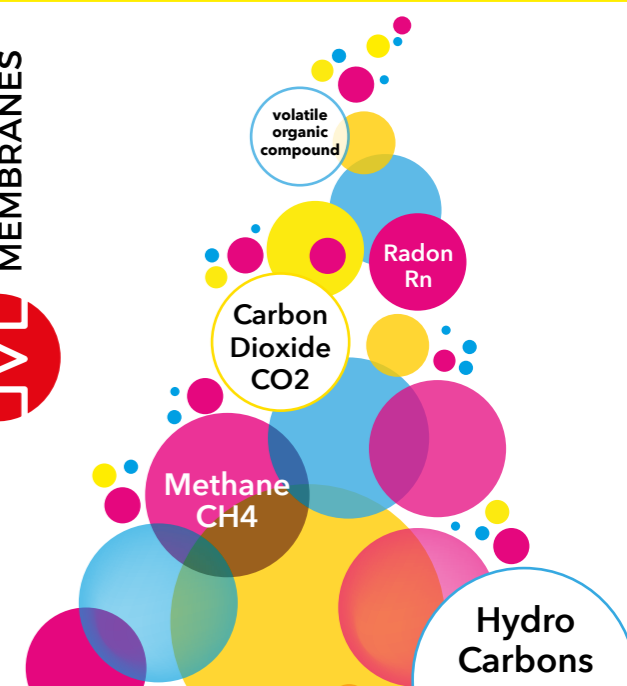

Meeting the unique and evolving requirements of your projects. We offer Reliable, accurate and easily accessible:

- BIM
- NBS Plus
- Detailed drawings including CAD
- Watertight and locking down structure concepts
- RIBA Product Selector
- Ongoing site support throughout project

Ground Gas Protection

Gas protection systems are vital in developments constructed on sites affected by permanent ground gas and/or volatile organic compound (VOC) contamination. MemTech Membranes are an ideal solution - BBA Approved and compliant with Building Standards (BS8485:2015, BRE 211.2015, CIRIA 665, CIRIA 735 and CIRIA 748).

DELTA membrane systems

ABOUT DELTA

Delta Membrane Systems Limited offers waterproofing solutions and systems. We are proudly the Leading manufacturer of Type C Cavity Drainage Systems in the United Kingdom leading in innovation substantiated as award winners for innovation with the Property Care Association and the Association for Specialist Underpinning Contractors.

We eat, sleep and breathe waterproofing solutions. We represent Quality Products, Solutions and Innovative Design.

We are a group waterproofing expert with a 50:50 (male/female ratio), which in the Construction industry is unusual. Our values are not just limited to Diversity, Equality, Respect, Research, Trust, Honesty and to create a safe, happy working environment for employees and customers alike.

Our values can be simplified in one word "satisfaction".

We value:

- Customer Satisfaction
- Job Satisfaction
- Quality Satisfaction
- Website user Satisfaction
- Satisfaction of Expectations
