

EcoSafe Slimline Bundled Oil Tanks

EcoSafe® Slimline

Introducing the Ecosafe® Slimline

The EcoSafe range of slimline bundled oil tanks have been specifically designed and built to provide responsibly safe and secure heating oil storage whilst offering the perfect solution to premises with limited space and access restrictions.

These models have a smaller footprint than standard oil tanks making it much easier to manoeuvre and fit into tight spaces.

Available in capacities 1000, 1400 and 2000 litres.

Characteristics

This range offers the same trustworthy characteristics as the EcoSafe family including:

Quality - Quality product design, specification and service; ensuring absolute peace of mind

Service - Excellent customer service is our priority including full technical and after sales support, a trustworthy guarantee and fast delivery times

Approved - All tanks are CE marked*

EcoSafe Slimline

Benefits

- Enhances your overall heating system.
- Low maintenance, no rust and no painting.
- The double skin construction ensures environmental protection and safeguards against leaks and ground contamination.
- Increased security due to lockable lid protecting your fuel.
- Remote oil level monitor reduces the possibility of running out of oil. Watchman Alarm provides both a sudden drop alarm and low level alert feature.

Watchman Alarm Tank Pack for EcoSafe Tanks

All EcoSafe tanks come complete with a Watchman Alarm tank pack greatly reducing installation time. Tank Pack consists of:

1. Watchman Alarm Transmitter
2. Watchman Alarm Receiver
3. PTFE Tape
4. Helledite
5. Helledite Application
6. Gate Valve and Filter
