Special Features

- ✓ Powerful Adhesion

Technical Information

Touch dry	1 hour
Recoatable	1 hour

Product Information

Composition

Key Benefits

Rock hard finish, good impact resistance, Sets in 1 hour, Strong adhesion - accepts bolts, nails and screws

Pack size

2KG

Application Method

Mix approx. 2.5 volume of powder with 1 volume of water to give the desired consistency. Always add the powder to the water. For very porous surfaces use slightly more water. Fill repair slightly proud. Level to the surrounding area by either smoothing or by scraping when the filler is firm but before it sets.
