

GEC ANDERSON® STAINLESS STEEL DOORS AND DRAWER FRONTS

Available in Made-to-Measure sizes. Included with GEC Anderson® stainless steel cabinets but are also available for use with customers own cabinets. They are of a robust, double-skinned stainless steel construction. Alternatively, single skinned doors and drawer fronts are available, mounted on white melamine faced chipboard (MFC). Corners are welded and polished. Option: Glass (frosted, clear or wired) in stainless steel frame.

- Choice of handles - Integral recess, back-slope edge, stainless steel 'D' handle or plain - for use with hardware by others.
- Pre-prepared for hinges, if required.
- *Option:* key operated locks.
- *Option:* fire-resistant core.
